To whom it may concern

LiteCure has made significant changes in the way the market is managed in China.

All decisions about representation, distribution, marketing and pricing, are now the responsibility of the LiteCure China office—LiteCure, LLC(Shanghai).

All previous arrangements with China based distribution companies, including Long FK, Sunice, and Qingdao Jiechuang Company, have been terminated, effective June 2018. Any letters, contracts, agreements between LiteCure and these companies, are no longer valid.

All communication regarding Lightforce lasers may only be directed to LiteCure, LLC(Shanghai) office or the authorized distribution partners of LiteCure, LLC(Shanghai).

In order to remove any confusion in the market place, and to avoid mis representation of Lightforce products, please see the attached list. The serial numbers on the list, represent units that were sold for demonstration purposes, they may not be considered regular product for sale.

Our goal is to provide the best service to clinicians and patients across China. We believe that giving full responsibility, to a first-class team, that is only concerned with LiteCure products, we are better able to meet and exceed, our customer's expectation.

Again, any question should be directed to David Sun, at the Shanghai office.

Respectfully

Andy Wood
Vice President
