

SIX REASONS WHY CUSTOMERS CHOOSE REMEDIANT PAM

Remediant SecureONE is an agentless, vaultless and a cost-effective PAM solution

1

Dynamic and Agentless Discovery of all admin access sprawl across **Windows, Linux** and **Mac** systems

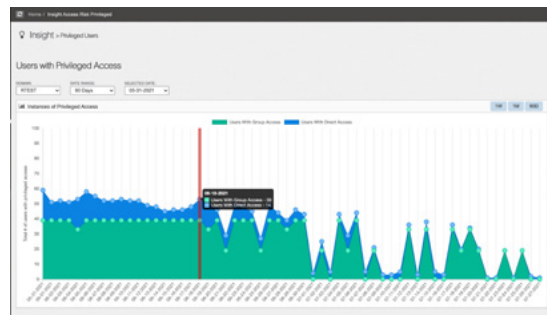

SCAN **10,000 ENDPOINTS** IN APPROXIMATELY 25-30 MINUTES

25-30 Minutes

2

Executives and Practitioners can **view and analyze** their privileged access risk to determine a path to quickly **reduce their attack surface**

3

One Click Removal of privileged access (**milliseconds/endpoint**) of undetected and unnecessary 24X7 privileged accounts sprawl reduces attack surface

4

Administer Just-in-Time (JIT) privileged access with MFA to enable **Zero Standing Privilege (ZSP)** and implement **Zero Trust security**

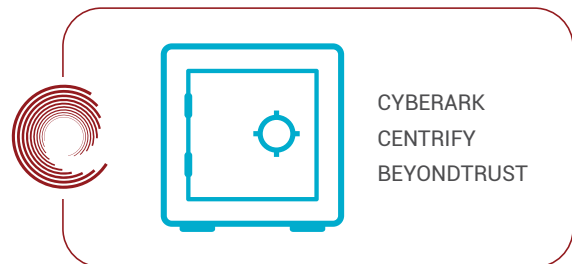

5

Industry's First EDR Integration for privileged session recordings: Leverage your investments in **SentinelOne, CrowdStrike Falcon** and **VMware Carbon Black** to proactively respond to privileged session-based nefarious incidents

6

Complement Traditional PAM Vault Vendors by discovering and securing admin access sprawl outside of the vault
