

DISASTER RECOVERY AS A SERVICE

Powered by Oracle Cloud

1 Business Continuity Assurance

Run 24x7 uninterrupted operations on Cloud

Avoid costly setbacks with a fully managed Cloud DR solution

Be agile with automated testing and maintenance of DR

2 Threat Protection Line of Defense

Protect against ransomware and malware attacks with air-gapped DR

Ensure zero data loss

Quickly failover mission-critical applications

Tailor SLA to your business requirement

3 Non-Disruptive and Efficient

Implement in hours for simple workloads and days for complex workloads

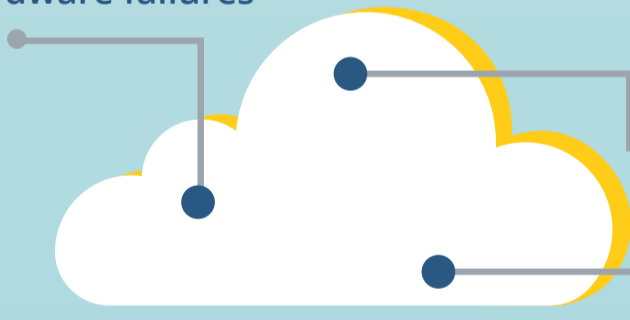

Deploy for a fraction of on-premise cost, scale up on demand

Setup DR on Cloud with zero disruption and minimal overhead

4 IT Resilience for Modern Enterprise

Complete immunity from all types of on-premise software and hardware failures

High availability and fault tolerant solution across an expansive global network

Auditable, compliant and secure

WHY DISASTER RECOVERY AS A SERVICE

1 **Gain** control over availability vs. cost

2 **Ensure** rapid RTO and RPO with dynamic provisioning

3 Managed **infrastructure**, managed **testing** and managed **SLA**

WHY WORK WITH ASTUTE?

Together, we're committed to helping companies of any size move and manage their workloads, implement disaster recovery and migrate to the cloud at an affordable price.
