OVALIZER 2.0

The all new Ovalizer 2.0 from Lockformer is the latest advancement in spiral pipe-forming technology. The Ovalizer 2.0 features a 10' boom which can produce pipe up to 20' lengths, as well as tooling with a Minor axis ranging from 6" to 36" to produce pipe with a Major axis ranging from 18" up to an impressive 96".

The Ovalizer 2.0 uses the latest technology in combination with a wedge style boom to make stretching oval duct easy, reliable and repeatable.

The Ovalizer 2.0 offers a full touch screen programmable logic controller (PLC) giving the operator the ability to save and recall parameters for fast, easy, and automatic set-up for production of duplicate parts. The PLC also features a re-stretch function that allows the operator to measure a finished part and simply input a dimension on the screen to automatically re-stretch the part if required.

OVALIZER 2.0

CAPACITY

- 18 gauge (1.25mm)

DIAMETER RANGE

- 6" (150mm) to 36" (900mm) Minor Axis
- 18" (457mm) to 96" (2440mm) Major Axis

MATERIALS

- Galvanized Steel
- Stainless Steel, mild
- Paint-Grip
- Coated Steel
- Aluminum

LENGTH

- Up to 20' (6100mm)

MOTOR/VOLTAGE

- 25 HP (32 Full Load Amps @ 460/3/60)
- 460/3/60 Standard (*Others available upon request*)

DIMENSIONS/WEIGHT

- Length - 230" (5842mm)
- Width - 48" (1220mm)
- Height - 70" (1780mm)
