VULCAN SOFTWARE

Increase your shop's productivity and profits with software that has been the industry standard for 30 years. Vulcan software makes you work more productive whether you have five or fifty people in your shop. Fitting input is quick, simple, and non-repetitive. Create customized, color-coded labels and reports easily.

- Comprehensive Fitting Libraries
- Automatic Shape Nesting
- Customized Color Labels
- Accessories
- Automatic Segmenting
- Manual Segmenting
- Dampers
- Reinforcing
- PDA and Tablet Compatibility

► THE CAD PROVIDERS WE ARE CURRENTLY OPEN IN ARCHITECTURE WITH ARE:

- Autodesk Fabrication CADmep
- SysQue
- DuctDesigner 3D
- EastCoast-CAD
- CADPipe
- DrawTech
- SDS
- Webduct
- Bentley
- Practi Cad

VULCAN® - CONNECTING THE OFFICE, FAB SHOP & FIELD

► FROM BID TO PROJECT COMPLETION - YOU'RE COVERED

Hardware and Software solutions are the ultimate answer for the HVAC contractor looking to tackle projects from residential to commercial while meeting tight deadlines and maintaining profitability on a project.

► VULCAN HARDWARE & SOFTWARE WORKING TOGETHER

As an MEP Contractor, you have enough point solutions that do not talk to other solutions across your business. We understand your business and the MEP specific challenges you face. This appreciate and understanding drives our goal of connecting your design and fabrication processes for a seamless, 21st century business environment.

► ESTIMATING

Spec-driven labor and material estimating software are ideal for HVAC and sheet metal estimators. Leverage pre-built assemblies, automatic fitting generation, and integration with CAD detailing solution, estimating software is a go-to solution for large and small sheet metal contractors alike.

► FABRICATION

For years, Vulcan has set the bar for cutting software with the best mix of innovation and usability. At the core of its success is the unique combination of powerful, intuitive technology. Easy-to-use input screens let your operators enter duct and fittings quickly and accurately. The comprehensive fitting library within Vulcan includes thousands of fittings of all shapes and sizes which can be used in projects ranging in size from residential projects to large industrial applications, while tools such as the automatic segmenting and shape nesting tools help to drive efficiency.

► FIELD FITTING SIMPLIFIED - A VULCAN COMPANION

Extend the integration of Design and Fabrication to Installation with Field fitting input, providing contractors, fabricators and their installers a way to capture sheet metal fitting information in the field simply, seamlessly, and accurately.
