FOR IMMEDIATE RELEASE:

Retailsphere completes primary research on thousands of retail businesses in the San Diego Metro area.

Innovative software platform helps landlords identify thriving retail businesses in the San Diego metro.

-

Retailsphere, the world's largest database dedicated to the retail ecosystem, has completed primary research on all shopping centers, malls, retail businesses, individual retail units, real estate companies, franchisors, franchisees and national brands with operations in the greater San Diego, CA metropolitan area. In addition to powerful information on sizes, unit locations, financial statements, and credit ratings; Retailsphere data also includes information on tens of thousands of key contacts involved in site selection and real estate decisions.

The Retailsphere application represents the primary tool available for commercial real estate professionals focused on the retail segment of commercial real estate. In addition to a database of all entities involved in retail in the San Diego metro, Retailsphere's platform includes tools to assist landlords find, target and market to tenants thriving in today's challenging retail environment.

The Retailsphere database for the San Diego metro includes over 5,000 individual units representing over 23,600,000 square feet of space in more than 141 centers and malls. This includes over 297 national brands, and almost 1,700 contacts of key decision makers.

About Retailsphere: Retailsphere provides more comprehensive retailer data and retail related news than any other platform available in the industry. Retailsphere's retailer profiles give shopping center owners, leasing executives, and commercial real estate brokers the data they need to analyze the market and make strategic business decisions when approaching potential tenants. Founded in 2018, Retailsphere has more accurate data in dozens of metro areas across the United States than any other database. *Retail insights from every angle.*
