

After a trip is created, edits can be made prior to TSP or PT assignment. As TSP or PT personnel complete equipment assembly workflow, statuses will updated to indicate when action needs to be taken by Linehaul personnel.

The screenshot shows the Vector app interface for reviewing trips. The main header is 'TSP Trips (My Facility)' with 2 items. Below this is a table of trips with columns for Trip ID, Trip Status, Tractor Number, Trip Origin, and Trip Destination. A filter bar above the table shows 'CREATED' (A), 'TRIP STATUS: STAGING, DISPATCH' (B), and 'PROCESSED: NO'. The first row in the table is highlighted in blue, showing Trip ID 372, Status Staging, Tractor Number 85649, Origin Indianapolis, IN, and Destination Rialto, CA. To the right of the table is a detailed view for '372 - Staging'. This view has two tabs: 'DETAILS' (C) and 'ACTIVITY'. The 'DETAILS' tab shows a 'Trip Summary' with fields for Trip Status (Staging), Purchased / TSP (TSP), Tractor Number (85649), Single / Team (Single), Trip ETA Date (11/15/2020), Trip ETA Time (12:30), Trip Origin (Indianapolis, IN), and Trip Destination (Rialto, CA). Below this are sections for 'Trailer #1' and 'Trailer #2', each with fields for MT / Loaded?, Trailer #, Weight #, Seal #, Dolly Needed?, Dolly #, and Trailer # Location.

**A TRIP STATUS:** Updates automatically as individuals complete steps inside the app. If intervention is needed, FXG Linehaul is able to manually change the Trip Status in the details panel.

- B TRIP FILTERS:** Use the filters to display trips that need focus.
- **Staging:** Trips that need to be assigned to a Check-In
  - **Proceed to Hook:** Trips currently with TSP/PT personnel
  - **Driver Hooked:** Trips which need validation on the Linehaul side
  - **Dispatch Approved:** Trip with validated dispatch information and need to be dispatched in TMS
  - **Processed:** Once a Trip has been dispatched in TMS, check the Processed button to remove it from the Vector Trips screen
  - **Dispatch Cancelled:** View cancelled Check-Ins/Trips

**C ACTIVITY TAB:** Displays a full list of actions taken during the trip (creation, assignment, hooking, etc.). Messages between Linehaul and TSP/PT personnel are also in this section.
