

BRAINWEEKEND.

For specialists and frontline practitioners treating CNS disorders

Thursday, November 19
Webinar

2 ce/cme credits

This activity is provided by Global Education Group.
2.0 AMA Category 1 Credits™.

● BRAINWEEKEND

Thursday, November 19, 2020—Webinar

2.0 CE/CME credits

Target Audience

This educational activity addresses the needs of specialists and frontline clinicians who treat and manage CNS conditions: internists, neurologists, nurse practitioners, physician assistants, primary care physicians, and psychiatrists.

Overview

A rising geriatric population, increased life expectancy, and the anticipated launch of novel molecules are driving the growth of the CNS landscape and, with it, the need for continuing medical education for practitioners who treat these disorders. As such, coordination of care between specialists and primary care is a critical component of safe, efficient, and patient-centered care.

"The current estimated annual cost to American society of just nine of the most common neurological diseases is staggering, totaling \$789 billion. These conditions include Alzheimer's disease and other dementias, low back pain, stroke, traumatic brain injury, migraine, epilepsy, multiple sclerosis, spinal cord injury, and Parkinson's disease."

Gooch CL, Pracht E, Borenstein AR. The burden of neurological disease in the United States: a summary report and call to action. *Ann Neurol*. 2017;81(4):479–484.

Educational Objectives

- Explain the goals of acute "abortive" and preventive migraine therapy
- Summarize the new therapies available for patients with relapse-remitting multiple sclerosis (RRMS) and the therapies under investigation

Faculty

Michelle H. Cameron MD, PT, MCR
Associate Professor
Department of Neurology
Oregon Health & Science University
Acting Chief of Neurology
VA Portland Health Care System
Co-Director and Associate Director for Research
VA MS Center of Excellence West
Portland, OR

Larry Charleston IV MD, MSC, FAHS
Headache Medicine
Clinical Associate Professor
Department of Neurology
Michigan Medicine
University of Michigan
Ann Arbor, MI

How Do I Obtain My CE/CME Certificate?

Please look for an email from outcomes@globaleducationgroup.com that will be sent to you 1 week following this BRAINWeekEnd program. The email will have your personalized link to complete the online conference evaluation form needed to receive your CE/CME certificate. Upon completion of this form, you will be able to download, print, and save your certificate immediately! Please make sure to check your junk mail folder, as this email may be tagged as spam.

Conference slides are available at pain.sh/bwe1119
