

## 340b Program for Langdale Employees

### What is 340B all About?

- Federal program to provide discounted drugs to certain eligible entities that serve the under insured or uninsured.
- Manufacturers must participate.....
- Discount averages 50%.
- 5 billion dollar program, 10 billion at retail

### The 340B Drug Pricing Program: How

*More typical scenario:*

A drug manufacturer enters into a Pharmaceutical Pricing Agreement (PPA) with HRSA.

A covered entity registers to participate in the 340B program with HRSA's Office of Pharmacy Affairs.

The covered entity purchases drugs at the 340B price or sub-ceiling price from a distributor, which receives drugs from the manufacturer.

The covered entity enters into a contract with a third-party, usually retail pharmacy.

The distributor ships the covered entity's drugs to the contract pharmacy.

The patient receives the 340B drug at the contract

---

## Chancy Drugs 340b Program Information:

- At this time, the 340b program is only available for The Langdale Company's Employees and their covered dependents
- All 340b prescriptions are filled at the Chancy Drugs Hahira location only
- All 340b patients may have prescriptions filled at both their "home" location and at the Hahira store
- All medications filled through the 340b program and the participating providers will have zero cost to the patient
- All 340b prescriptions will be sent via the Chancy Drugs Delivery Drivers to their store of choice or the plant or facility they work at.
