

LittaTrap™ Full Capture

ENVIROPOD.COM

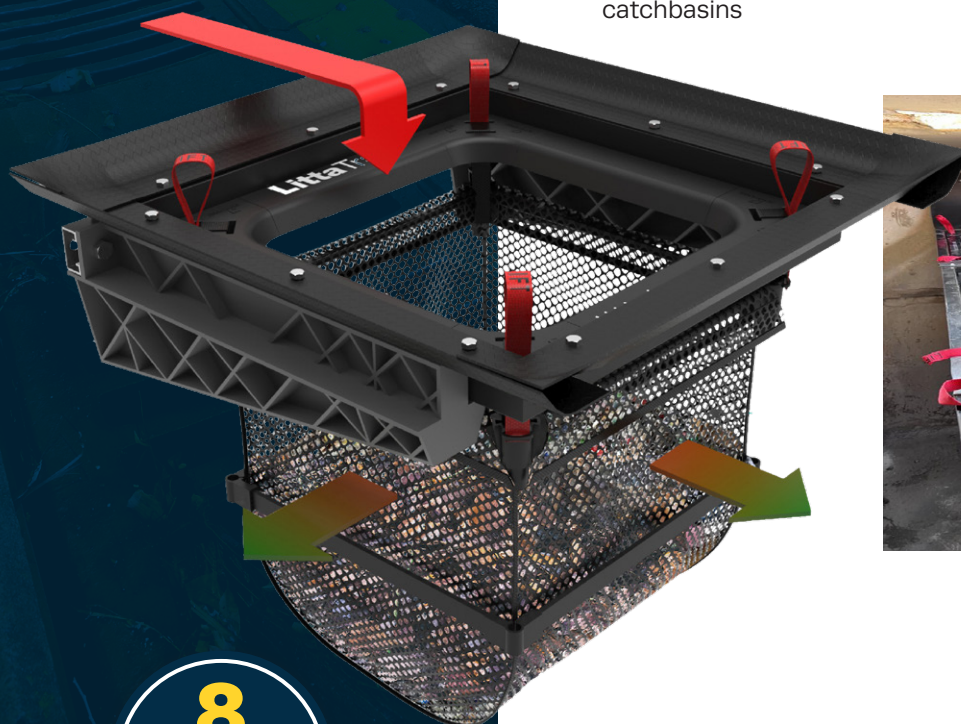

Certified Full Trash Capture Device
by California State Water Board

- » **LEADING CATCH BASIN INSERT**
- » **ENVIROPOD HAS OVER 25 YEARS OF DEVELOPING AT-SOURCE TREATMENT**
- » **OVER 50,000 ENVIROPOD INSTALLATIONS WORLDWIDE**
- » **THE LITTATRAPFC MODEL IS DESIGNED TO MEET THE REQUIREMENTS OF THE CALIFORNIA STATE WATER BOARD**

Backed by over 25 years of research and design, the Enviropod LittaTrap Full Capture (FC) is the world's leading catch basin insert to meet water quality objectives and regulations.

The intuitive and adaptive design allows easy install and operation in all forms of stormwater catch basin infrastructure. The design maximizes hydraulic conductivity and storage volume.

- » **EASY INSTALLATION** with fewer parts and a lighter frame, the installation process is quicker and saves you time on site
- » **HAND MAINTENANCE**
The LittaTrapFC can be maintained quickly and easily by hand or by vacuum truck
- » **FLEXIBILITY** The flexible design allows the system to be easily adjusted to fit any catch basin configurations
- » **THIRD PARTY TESTED** and hydraulically engineered
- » **HINGED VECTOR PORT SEAL**
MVCAC verified for full visual access under the trap with the basin grate on or off
- » **LIGHTWEIGHT & DURABLE**
The lightweight yet durable design of the LittaTrapFC is a safer and a longer lasting product than the alternatives
- » **SEAL AND ADAPTOR KITS**
for irregular sized and manhole catchbasins
- » **CURB INLET AND GRATE INLET**
Design options available, contact us to start your project today

**8
YEAR**

WARRANTY ON
STATIC PARTS

EASY MAINTENANCE

Maintenance is a simple process that requires no confined space entry. Maintenance can be quickly undertaken using a vacuum truck or it can be maintained manually by hand.

Lift the LittaTrapFC out of the catch basin using the LIFT handles

Tip the contents out of LittaTrapFC into suitable receptacle for contents

Reuse the LittaTrapFC by placing securely back into the surrounding frame and seal, and close grate.

INSTALLATION – CURB INLET AND GRATE INLET
