

# EVE-Car<sup>TM</sup>

EVE Park's Exclusive Car Share Program

TESLA

# Just Drive EVE-Car™ will get you there.

What if you could have a beautiful new ride, a Tesla no less, and no requirement to buy it, trade it, maintain it, fuel it, or really anything other than drive it?

What if you could have the car you want – without all the needs of the car you own?

**At EVE Park you can, with EVE-Car™.**

EVE-Car™ is available exclusively to residents of EVE park. Parking, regular preventive maintenance and overnight charging are all included! There are four different plans – to help you tailor your EVE-Car™ experience around your driving needs. Your maximum commitment is a one-year plan, and plan, and if even that is too much, you can subscribe on an entirely “Pay-as-You-Go” basis.

# Which EVE-Car™ Plan is Best for You?

**Take a look through our four EVE-Car™ plans,** each tailored to help you to find the one that best fits your needs. No matter if it is a regular rental or an hourly rental for a family trip, your vehicle will be ready to go when you are! You will get there without tail-pipe emissions. And you'll arrive in style – in a Tesla.

	Erie	Ontario	Huron	Superior
<b>Access</b>	Pay-as-you-go	4 days/month + 40hrs	20 days/month	Unrestricted
<b>Perfect for people with</b>	Sporadic local trips	Frequent weekend use	Frequent weekday use	Busy lives and lots of trips
<b>Price</b>	\$11.99/hr or \$90/day	\$450/month	\$750/month	\$900/month
<b>Insurance</b>	Included	Included	Included	Extra
<b>Key Feature</b>	No monthly obligations	A substitute for the second family car	Covers the commute	Like a short-term lease, but with extras

**Erie** – For drivers who have light, locally focused, and sporadic driving requirements. This package allows for overall vehicle ownership savings with the convenience of consistent vehicle access. This plan has no monthly cost obligations.

**Ontario** – For drivers who have frequent, less predictable driving needs. Perfect option for substituting the second car that sits most of the time but is essential for backup sometimes. This is a great way to eliminate the cost of vehicle ownership.

**Huron** – For drivers who have hard-coded scheduled driving requirements with predictable down-times. That car can earn some money in the down-time and come back cleaned and ready to go. Ideal for weekly commuters who do not need car on weekends.

**Superior** – For drivers who need completely uninterrupted constant vehicle access. Good for busy young families with car seats, too.

## Just Ride EVE-Car™ eBikes

EVE-Car™ subscribers will also have access to a fleet of Pedego eBikes. These high-end city-bike style e-bikes will be parked, maintained and charged overnight for EVE-Car™ subscribers who want to blend some more active transportation and fun into the way they get around.

# Go Ahead, Leave the Guilt Behind.

Tailpipe emissions count for about 40% of the average Canadian's annual carbon emissions. By driving a Tesla EV, you eliminate all of that. By participating in a Tesla EV car-share, you are also spreading the embedded carbon of building a new vehicle across more than one driver. With EVE-Car™ you can go places, leave places, leave the guilt behind, and arrive in style.

## FAQS:

### **What about insurance - how does that work?**

Insurance is included with the cost in the Huron, Ontario, and Erie packages. This is because these packages are traditional carshare offerings. Insurance is not included in pricing for the Superior package, as it is very similar to a lease takeover with additional benefits.

### **What about maintenance?**

EVE-Car™ covers annual servicing and general repairs that are not caused by collisions or driver error for vehicles in the Superior package. However, within the other package tiers all maintenance and repairs not caused by collisions or driver error are entirely covered, so you never have to worry about vehicle maintenance!

### **Who pays for parking?**

Parking is included in all packages. If you already have a parking spot with the purchase of your unit that is not occupied by another personal vehicle you may be eligible for a discount on the Superior package!

### **Who pays for charging?**

All overnight charging at EVE Park for vehicles in the EVE-Car™ program is included!

### **I have little kids. What if they leave lego pieces and goldfish crackers in the back seat?**

With the Superior option, you can set your own standards for the condition of the car, as long as it comes back ship shape at the end of your annual subscription. For those with one of the other plans, you can tidy up yourself before returning the car – or pay EVE Park for detailing the vehicle to get it ready for the next driver.

### **I really like the flexibility of the Erie - how much lead time do I need to reserve a car?**

Our goal is to require no lead time to reserve a vehicle! We will have a running tally of how many vehicles are available for use at all times. This will give you the ability to judge whether you need to book a vehicle in advance or not.

### **Is there a limit to how far I can drive?**

Yes, every hour of rental for the three carsharing packages has a base 50 km included. Beyond that there is a low per km usage fee. With the Superior package, there is a monthly/ annual km limit very similar to how a vehicle lease operates.

### **What happens if I have the Ontario or Huron plan and use the car more than the plan allows?**

Additional utilization will be charged as per the base Erie package rates.

### **Will the vehicle that I choose go as far as I need?**

The range of a Tesla model 3 is well over 300 km. The cars will typically receive a full charge each evening. And if you only need the car for a part of the day, you will be able to see the state of charge available before you pick your car up.
