MATERIAL HANDLING

PRODUCT GUIDE • 989.777.0910 • amigocarts.com

MEET THE FLEET

GIVE YOUR TEAM THE EDGE

Our unique fleet of material handling products is designed to go where others can't while increasing employee safety and efficiency. We also make servicing easy with quick access to batteries and drive components and a nationwide service network.

MAX Pro™

"We use the Max Pro every day, all day. It is a safe and secure way to move items while helping us be more efficient. The Max Pro makes my job a lot better, moving work around the shop."

-Randy Wellman
Fullerton Tool
Shop Floor Expeditor

FULLERTON
Tool Company Inc.

DEX Pro™

"The Dex Pro helps me cover more ground in our large facility without feeling fatigued. It allows me to easily and safely move materials in and out of areas that other industrial carts can't go. They are in use for 16-20 hours/day."

- John Kocisky
Quality Assurance Specialist

FedEx
Ground

DEX™

"The Dex Pro works perfectly, it doubles our efficiency for the person using it. It's something we didn't even know we needed and we're so happy with it."

-Tom Parasiliti
Orchid Orthopedic Solutions
Production Manager

ORCHID

DEX Pro™

Standing platform carrier

The innovative design of Dex Pro allows items to be transported quickly while reducing strain on employees.

ABOUT AMIGO

Our Roots

Amigo was founded in 1968 by Al Thieme when he invented the first three-wheeled mobility vehicle for a family member with a disability. Little did he know that a long-lasting family business and an entire industry had just been born.

Our Growth

Since 1968, Amigo has grown from solely producing personal mobility vehicles to becoming the leader in retail motorized shopping carts to finding our niche in the world of material handling.

Our Passion

Improving Lives Through Mobility.® We work hard every day to provide the best in mobility while providing exceptional customer service and a nationwide service network.

Our Products

We have nearly half a century's experience in providing top quality products with low cost of ownership and industry-leading innovations. We proudly produce them in Bridgeport, MI, USA.
