

# Healthcare Solutions

Sedia Systems design-driven products provide the ultimate solutions from waiting rooms, corridors and patient rooms to nurses stations, training rooms and auditoriums.

JumpSeat Wall

### M60 Swing Away

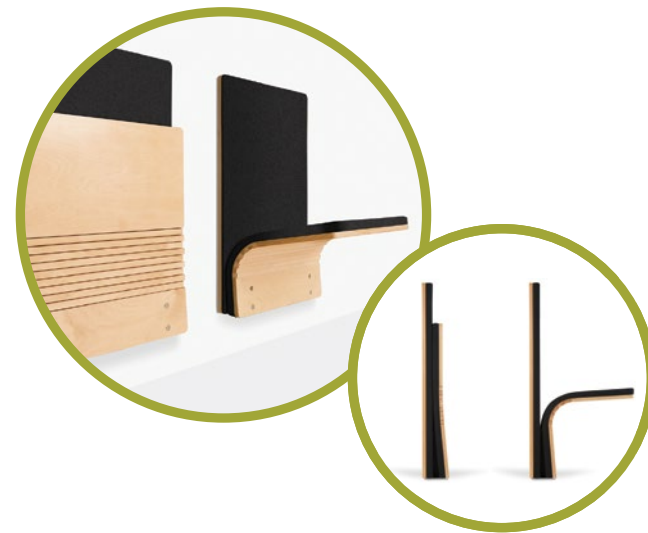

Created exclusively for Sedia Systems by award-winning designer James Morrow, the M60 Swing Away is ideal for today's healthcare environments. Utilizing our wide range of seating options, the M60 provides flexibility for nurses stations and training rooms.

JumpSeat Wall

### JumpSeat® Collection

The award-winning JumpSeat's innovative folding mechanism provides unique space-saving characteristics. The JumpSeat Wall features a 4" slim profile and is mounted 6" off the floor to facilitate cleaning. Sitting at 90 degrees, the JumpSeat 90 is floor mounted and flush to the wall. This collection is ideal for hospital corridors, patient rooms and waiting rooms.
