

Cash Flow Management Software That Helps Your Bank Grow More Profitably

FINSYNC provides businesses with an all-in-one payments platform that helps them centralize control of payments, process payroll, automate accounting, manage cash flow and **connect with their personal banker, accountant and insurance agent online.**

Additionally, FINSYNC is working on a cash flow management application for individuals that will be live in 2021.

The mission is to help businesses and individuals manage cash flow more successfully with innovative software and unmatched services, backed by a network of top-tier bankers, accountants and insurance agents.

Banks Are Invited to Join the Network as Charter Members

For a limited time, you can join as a Charter Member for \$500 per month and receive the following benefits...

No long-term contract required

Increase Non-Interest Income

Instead of the traditional 10%, you can earn 30% revenue share when you refer FINSYNC to businesses for cash flow management.

100 referrals could add an additional ~ \$70,000 in recurring revenue.

Approve & Close More Loans

At no charge, your bank can have two lender seats and work with any other member of the network through your own Lender's Portal.

A savings of \$350 per user per month, \$700 for two users, \$8,400 per year.

Grow Your Customer Base

FINSYNC helps you promote new products and services and loan types to attract and retain more customers.

Marketing services are included in Charter Membership.

New Products & Services

FINSYNC is always innovating, delivering new solutions that will help you better serve your business customers.

A great way to acquire and retain customers longer.

"The FINSYNC solution exposed our customers to what a truly digital experience is going to feel like, which was very positive."

– Ben Brazell, III
Chief Administrative Officer, First Reliance Bank
