Are your invoices import ready?

- Invoices – Numbered, dated, Full shipper & Consignee addresses, with VAT & EORI Numbers
- Values, description, Tariff code, quantity of items and Country of origin
- Packages with Gross and Net weight – Must match packing list and actual packages sent
- Incoterms, Terms of sale – Who is paying for the freight charges and at what point of import will the liability change from seller to buyer?

Who will be completing your Custom Entry?

- This is one of the most important areas of concern. Goods will not be allowed to enter the UK, nor exit the EU without an import entry. **Here at [Chambers & Cook](#) we can make these declarations on your behalf.**
- If you have registered to raise your own customs entry, please let us know so we can update our records.
- If there are any errors on the Import document(s) you produce (or get raised elsewhere on your behalf) you will be responsible for any delays caused to your own goods and any associated costs for vehicle delays.

If you require any further information on any of the above points, please feel free to email brexit@ccfreight.com for more information or request a more detailed breakdown of the Import Declaration Requirements.
