NOTE:

The Reminders Application must be opened BEFORE opening the Bluetooth Application. If the Bluetooth Application is opened before the Reminders Application, a "**Choose Server Location**" error screen will display.

If this error screen is shown:

1. Exit the Bluetooth Application
2. Enter the Reminders Application
3. Accept both prompts
4. Re-enter the Bluetooth Application
5. Select the Refresh symbol (D).

You can now complete device pairing.
