How to Download an APLS Scenario to an iPad for ALSi

This may be necessary if for some reason scenarios have been deleted from APLS iPads. If one of the ALSi kits has a complete set of scenarios then it can be used as a "donor" source to transfer the missing scenario(s) to the "recipient" iPad. See the "How to transfer Scenarios from one Facilitator iPad to another" document.

If there is no "donor" iPad available, then the scenario(s) can be downloaded from the iCloud e-mail set up on all APLS ALSi iPads. Just follow the following instructions.

Note:

The iCloud Drive is turned off as default on all APLS iPads, so will need to be turned on Choose a Facilitator iPad

Connect that iPad to the internet Go to Settings:

Connect to a local Wi-Fi that allows internet access:

Settings	General

Close "Settings" and open "Mail":

In the inbox there are emails with one scenario attached per email e.g. Cardiac Scenario 1 below:

You may need to touch the icon to get the scenario to download:

Having found the email(s) that contain the scenario(s) you want, you then have to load them into ALSi.

To do this, place a finger on the scenario icon and hold until this menu pops up:

Select the "Open in ALSi" icon:

	Updated at 3:47 pm 26 Unread							

ALSi will open with the "Success" message. Select "OK":

ALSI 5.1.1 - SB	No. ALSi
	Success The scored file was successfully imported
	Dk Dk
	🔅 Settings
	Community
	The use of this exploitation is for finaling autopase only by approximative extractors, it is not a substitute for professional judgment in placed, calcurationary and data not organize to calculate model adviso, larg source econtrys are Copyright PuSch no, and Wed Vites Inc. All gran rearest. For more information places test www.RNLE.co

The Scenario will have, by default, loaded into the "Home" folder as you can see from the example below using Cardiac Scenario 1:

The scenario needs to be moved into its appropriate folder: "1. APLS Cardiac" in this example.

To do this, select "Scenarios" from the ALSi home screen:

ALSI 5.1.1 - SB

If the appropriate folder doesn't exist, it can be created by selecting the "+" symbol:

This will open the dialogue box that will allow you to type in the name of the Folder you are creating e.g. "1. APLS Cardiac".

🗲 Back	Scenario Library
Settings	Folders +
Scenario Library	Folder Name
QuickPick Library	
Investigations Parameter Library	
Investigations Template Library	Cancel OK
Sound Library	
Event Log Library	Home Scenarios +
Event Comments	1. APLS Cardiac 1 🔹 🕨 🕅 👘
Q W E R	TYUIOP <
A S D	F G H J K L return
◆ Z X C	V B N M ! ?
.?123 😄 🔮	.?123

If the appropriate folder already exists or you have created it, the scenario can be moved from the "Home" folder into its appropriate folder by selecting the four arrow symbol:

E Back	Scenario Library		
ettings	Folders		-
Scenario Library	Home		
QuickPick Library			
Investigations Parameter Library	1. APLS Cardiac		W
Investigations Template Library	2. APLS Illness	2	
Sound Library			
Event Log Library	Home Scenarios	A	
Event Comments	1. APLS Cardiac 1	🕨 🕨 🐚 🕂 🐋	
Sync Data	1		

This will open a list of all existing folders. Select the one you want to move the scenario to:

It is now important to:

- Turn the iCloud Drive off again
- Make this iPad forget the Wi-Fi you used to access the internet (This will mean that the iPad will only pick up the Wi-Fi generated by its specific ALSi kit).

Go back into Settings, select the iCloud Drive and turn it off:
