APLS COURSE

Advanced Paediatric Life Support

Learn the structured approach to emergency paediatric care.

Established since 1997 with courses throughout Australia, the three day APLS course covers all aspects of the emergency management of children.

Supported by a comprehensive course manual, the APLS learning environment is interactive and practical. Lectures are supported by emergency scenarios, skills stations, interactive workshops and video.

All APLS courses are taught by leading practitioners in the field of paediatric care.

The course covers:

- Basic and advanced life support
- Diagnosis and management of the seriously ill child
- Diagnosis and management of the seriously injured child
- Practical procedures – airway management, trauma, radiology, fluid and pain management, resuscitation of the baby at birth and more

Outcomes include:

- Increased confidence, awareness, skills and ability to assess and respond to a range of paediatric emergencies
- RACGP / ACRRM points and RGP funding available

UPCOMING COURSE:

"One of the best courses I have ever attended"

"A rapid learning curve"

"Amazing facilitators, all so knowledgeable and approachable"

"The most stimulating and engaging course I've attended by a country mile"

"Remains the most useful method of increasing confidence with paediatric emergency"

Candidate testimonials, 2013
