

# BENEFITS OF MEMBERSHIP

## FSC REGULAR MEMBER BENEFITS

### ABILITY TO BE NOMINATED TO THE FSC BOARD

The FSC Board is the governing body for the FSC, shaping policy direction and guiding the operational committees.

### VOTING RIGHTS AT GENERAL MEETINGS

Voting rights allow members to have a strong voice on the activity and direction of the FSC. Voting takes place at General Meetings on issues such as Board nominations, financial accounts and FSC Rule changes.

### CHAIRING FSC COMMITTEES

Our committees are the 'engine-room' of the FSC, where members actively engage to create outputs and outcomes shaping the direction of the industry. As Chair of a committee, you are able to lead, shape and guide the yearly workplan.

### GOVERNMENT AND REGULATOR MEETINGS

An invitation to join our member only roundtables with political and regulatory leaders, giving the opportunity to hear views first-hand and ask questions.

### CONTRIBUTION TO FSC STRATEGY

Members have the opportunity to input into the FSC strategy and plan development, with the FSC Board having ultimate responsibility for the direction and focus of our work.

**PLUS ALL THE ASSOCIATE MEMBER BENEFITS**

## FSC ASSOCIATE MEMBER BENEFITS

### EVENT DISCOUNTS AND INDUSTRY AWARDS

A core benefit of membership is the opportunity to broaden networks, learn from peers and develop professionally. All employees of FSC members receive preferential rates on our leading-edge conferences, workshops and events.

### INDUSTRY DATA AND INSIGHTS

Member-only information is available at a more detailed level than available publicly, providing data and insights for the insurance and KiwiSaver markets.

### COMMITTEE MEMBERSHIP AND INFLUENCE

All members have the opportunity to actively shape the industry voice and policy direction through committee representatives. Our Committees give FSC members the opportunity to pool expertise and share learnings with other FSC members through regular meetings.

### REGULAR MEMBER UPDATES

Our regular newsletters provide members with information and insights on the industry and FSC activity. The newsletters contain information on policy and advocacy outputs and outcomes, events, committee activity and give members a chance to keep up to date.

### CONTRIBUTION TO FSC SUBMISSIONS

Proactive policy and advocacy engagement with submissions on all key consultations. Submissions are created in consultation with members via the FSC Regulation Committee.

### ENGAGEMENT WITH POLICY MAKERS

By bringing the membership together we gain insights into the thinking of policy makers and government, providing a sector-wide voice and interface with Government and regulators. Our Regulatory Outlook is a living document that provides updates on policy and consultations.
