

CELEBRATING OUR EVERYDAY HEROES

About the Awards

Do you want to recognise an outstanding teacher, swim school, presenter, program or organisation in your state, territory, or country?

You can celebrate their achievements by nominating them for an AUSTSWIM Award! The AUSTSWIM Awards acknowledge individuals, swim schools and organisations for their contribution to aquatic education and water safety through leadership, innovation, and community spirit – helping students and their community to be safer in, on and around water.

Why nominate?

The AUSTSWIM Awards are an exciting opportunity to celebrate the contributions of teachers, presenters, swim centres and programs.

AUSTSWIM Award recipients are recognised by colleagues and communities as the best in the state/territory in their category.

Previous recipients have benefited from obtaining professional learning in areas of their choice, unique career opportunities and accelerated career progression.

Many recipients have described their Awards win as 'life changing'. The recipients and nominees have often been inspired themselves by role models in swim schools or industry, reflecting on their own experiences.

These recipients are now inspiring their own students, colleagues, and communities – sharing their motivation and passion while guiding and assisting students and colleagues to achieve their best.

Previous recipients become ambassadors for the Awards, sharing their journey through promotional activities, speaking engagements, events and more.

Swim school recipients benefit with opportunities to build relationships with teachers, aquatic industry leaders and community.

Help make a difference by nominating an outstanding teacher, presenter, swim centre, program, or organisation in the 2021 AUSTSWIM Awards. Across many categories the state or territory recipients are automatically nominated for the national Award.

How to Nominate

Prepare your nomination

When preparing a nomination consider these steps:

1 Choose the Award category

Before you start you may need to read through each of the categories. This will help you choose the correct category and ensure you are able to make the nominee shine in each of the criteria. You can consider which of the Awards are the most appropriate way to celebrate the nominee's achievements. You also need to understand the specific eligibility and selection criteria which need to be included in your nomination.

2 Advise the nominee

If the nominee meets the eligibility requirements, you may wish to advise them of your intention to submit a nomination for an individual award. While this is not necessary, it does mean that the nominee can be involved in the nomination process and given the opportunity to provide information and feedback before the nomination is submitted.

3 Complete the online nomination application

Your nomination needs to demonstrate the nominee's achievements and claims against the selection criteria, supported with examples and evidence. The online nomination application provides information about selection criteria, length of submission and style. Ensure to use the appropriate online application for your chosen category. The nomination applications can be found at austswim.com.au/Awards.aspx. Nominations can be edited after submitting, up until the entry deadline.

4 Source video

Attachments support the nomination, offering the judging panel further insight and information about the nominee.

Please provide a video reference that supports your nomination. This may come from students, parents or colleagues and should highlight how the nominee has made an impact and why they are being nominated. Share a favourite story with us!

Please note: this is an optional requirement, however we strongly recommend you provide a video as your nomination will be at a disadvantage against those that do supply one!

Keep the video short (under 2 minutes) and please note:

- Permission and personal consent is always required prior to a visual image being taken.
- Ensure only the person giving permission to be filmed is captured in the video.

Material may be supplied as follows:
