

**TECH
UNITES
US**

Phase2 believes that technology is a common thread that can bridge and promote the best in human experience.

We have a vision for how to help introduce historically disadvantaged youth to careers in the modern technology space that creates valuable opportunity, experience, and access.

TECH UNITES US

Classroom

Tech Unites Us Classroom is Phase2's social impact program that is specifically designed to foster and support the next generation of tech talent. The program teaches development, design, and other tech disciplines to provide students with an opportunity to learn with our top leaders at Phase2.

At Phase2, we recognize that everyone needs a seat at the table for us to create a truly innovative and inclusive digital experience. Tech Unites Us Classroom is our way to introduce more people to the tech industry and provide them with the support they need to be successful in their future careers.

Students will receive a guided learning experience, one-on-one mentoring sessions with experienced professionals, and a long-term connection with Phase2's network of industry professionals.

What our program includes

We are experienced teachers and mentors who have the know-how to connect students with the knowledge, training, and advocacy they need to confidently take strides towards careers in tech and associated disciplines. Our program includes:

Curriculum in

- Development
- Design
- Other tech industry disciplines

Access to tools

- Collaboration platforms
- Chat and communication programs
- Design and development software
- Online knowledge hubs and tutorials
- Specialized tech industry software

Mentorship

- Career guidance
- Interview preparation and tips
- Resume support

Teachers with experience in all areas of the tech industry

Age Range

High school students

Prerequisites

None. We recognize that different groups of students have different levels of comfort and experience with technology and understanding the industry, and we make sure to meet students where they are in their knowledge. Our training is focused on skill development, as well as broader understanding of what careers in tech might look like, the language needed to have the right conversations, and the paths students might take to achieve their goals.

We are seeking partners

We are actively seeking partners who have access to our target population of eager tech industry learners. Connect with us to see if your organization is a fit!

Example Classes

We offer a robust and customizable curriculum. Here are a few examples of our students' favorite classes:

- New Developer Tips and Tricks
- The Art of a Good Demo
- Product Management 101
- Accessibility for the Web
- What Makes a Good Project Manager
- All About Agile Process
- Sketch & InVision Basics
- All the Things We Call Design
- Being a UX Practitioner
- Crafting a Design System
- Aesthetics & Design
- SEO, Analytics, and Content Strategy
- How to Communicate Like a Pro
- Presentation Skills

Note: During the COVID-19 pandemic, all classes and instruction take place online

Who is Phase2?

For the most influential companies in the world, Phase2 is a proven partner in advancing the digital landscape, evident by 20 years of experience, constant invention, and trailblazing work.

Over the last two decades, we've grown our presence from coast to coast and offer hubs in the DC metro and the Pacific Northwest. Phase2 also has experts in our Everywhere office with nearly half of our employees working remotely. We are constantly driven by our values with one another and our clients: solve, collaborate, adapt, and create.

What we believe in

The core values of Phase2 are:

- **Be authentic.**
- **Jump in, think big, create.**
- **Learn, collaborate, and share knowledge openly.**
- **Pinpoint the real problem and solve it.**
- **Adapt, evolve, and always improve.**

At Phase2, we ignite change and share it with the world. Phase2 has an unwavering commitment to diversity and inclusion. Phase2 is dedicated to creating an environment of openness and engagement where each member of our diverse workforce can bring the best, most full expression of themselves to work every day in order to best serve one another and our clients.
