

Good Morning,

I have absolutely no problem recommending Lawn Elements to you. This year alone they have turned around two aging lawns that have been neglected for some time by other companies. The two communities went from weed infested to beautiful lush lawns in less than four months. I find this company to be very responsive and very professional all the time. Their level of knowledge concerning all aspects of maintenance is outstanding. I am currently in the process of signing them on to two new properties for next year.

I strongly recommend using Lawn Elements for all your landscape needs.

Respectfully,
Frank Saladino, Property Manager
