

NEW LOOK FOR MAVEN ELD TIMERS

What Is Being Improved?

1. Timers are now displayed as blue circles. They will be colored blue, yellow, or red based on how much time is left on the timer.
2. The entire screen now scrolls. The timers do not stick to the top of the screen.
3. Logs are displayed as the default view. Action Items are still available, but must be clicked into. Action items now have a red dot to indicate if there items.
4. Each log list item will now show the total time On Duty and in Drive. Currently, the list only shows Drive time.
5. Logs are now shown back to 14 days. This does not impact Roadside Inspection which is still limited to either 14 or 8 days depending on if in Canada or the US. All logs can be edited and certified.
