

ELITE URETHANE BUMPER PLATES.

Excellent durability and low bounce for a superior lifting experience.

TECHNICAL INFORMATION.

WARRANTY: 3 years.

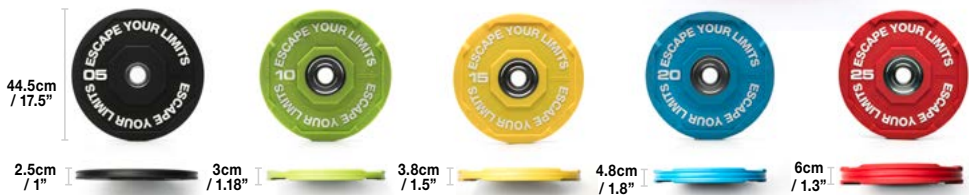

MATERIALS: Urethane, machined steel core.

COUNTRY OF ORIGIN: China.

DIAMETER: External: 44.5cm / 17.5".
Internal: 50.6mm / 2.2".

WEIGHT: UK: 5kg, 10kg, 15kg, 20kg and 25kg.
US: 10lbs, 25lbs, 35lbs, 45lbs and 55lbs.

WEIGHT TOLERANCE: +/-2%.

KEY FEATURES.

Hard-wearing urethane over a steel core, in IWF-compliant colours with contrasting weight indicators.

Narrow plate widths mean that advanced lifters can fit more on the bar.

Grippable ridge and finger castellations, so easy to pick up and handle.

TOP BENEFITS.

- **LOW-BOUNCE.** Having less bounce than rubber plates means better control of the bar for users.
- **WON'T MARK FLOORING.** Urethane is kinder to floors than rubber, so this is ideal for clubs who want to keep their floors looking good.
- **HARD WEARING.** Durable urethane over a steel core; for club owners this means a long-life return on investment.
