

# REDESIGNED CO-AXIAL CBB OIL GUN

BURNERS | FLARES | THERMAL OXIDIZERS | VAPOR CONTROL | RENTALS | AFTERMARKET

The Zeeco redesigned Oil Gun Insert now allows for easier installation and maintenance which means a quicker turnaround to get your burner back in operation. Contact Zeeco's Aftermarket Products and Services department today to learn more about the new CBB Oil Gun model or to request a quotation at [Aftermarket\\_Inquiry@zeeco.com](mailto:Aftermarket_Inquiry@zeeco.com) or by phone at +1.918.258.8551.

## Previous Design

- Sleeve/gasket location on upper receiver body
- Difficult copper clad gasket replacement
- Minimal sleeve to gasket tolerance requires tight fit of gaskets
- Gasket replacement must be done at the burner in potentially undesirable conditions

## Enhanced Design

- Sleeve/gasket location moved to lower oil gun body
- Easy installation of copper clad gasket in both horizontal and vertical applications
- Redesigned sleeve tolerance to allow for easier gasket installation
- Gasket replacement can now be done away from burner in controlled environment
- Less damage and loss to copper clad gaskets
- Easier and faster installation and maintenance
- Reduced burner downtime

## The Zeeco Difference

By concentrating on what we do best, Zeeco has grown into a worldwide leader in combustion and environmental solutions. We are a privately held company whose ownership stays highly involved in daily operations, with upper management comprised of the world's leading combustion experts.

When you call Zeeco, we answer. When you make a request, you get a quick, efficient response. We are lean and efficient, able to make decisions quickly, without bureaucracy and red tape. Our sales, engineering, and purchasing groups work hand-in-hand to deliver highly competitive quotes and heroic turnaround times. We stand ready and willing to travel anywhere in the world to discuss upcoming projects firsthand, and to ensure that every existing project runs seamlessly.
