### **ZEECO MIDDLE EAST LTD. Has Become an Approved Source for Saudi Aramco**

USA – BROKEN ARROW, OKLAHOMA – Zeeco, Inc. is proud to announce that Saudi Aramco has granted 9COM approval to Zeeco for a variety of combustion equipment manufactured at the Zeeco Middle East, Ltd. facility in Dammam. “We appreciate Saudi Aramco’s involvement and assistance in achieving this certification, and we are looking forward to continued manufacturing success in Saudi Arabia,” Mohammed Abugharbieh, Country Manager for Zeeco Middle East, Ltd., said.

The approval allows Zeeco to supply Saudi Aramco with burners, thermal oxidizers, flare systems, and other components in its Dammam facility. “We are strategically located in Dammam Industrial City 2 so that we may provide rapid response and more efficient product delivery to the energy producing companies in the area,” Abugharbieh said.

Zeeco is a global leader in the design, manufacturing, sales, and service of combustion equipment with manufacturing facilities on four continents and more than 25 engineering, sales, and service offices worldwide.

“We value our long relationship with Saudi Aramco and appreciate the 9COM approval of equipment produced at our Dammam facility. We anticipate a mutually beneficial relationship as we serve this important market,” Darton Zink, owner and CEO of Zeeco, Inc., said.

Known for its culture of innovation and problem solving, Zeeco has fostered a relationship with Saudi Aramco which has already resulted in new flaring technologies brought to market. “You will see more Saudi technologies being developed and more manufacturing within Saudi Arabia,” Abugharbieh said.

#### *About Zeeco:*

Founded in 1979, Zeeco has steadily become the world leader in the design and manufacture of advanced combustion and environmental solutions. Headquartered in Broken Arrow, Oklahoma, USA, Zeeco is a privately held business with more than 1,000 employees and 25+ global locations on virtually every continent. The company has executed 40,000+ projects, including ultra-low NOx industrial burners, flares, hazardous waste incinerators, vapor control, and ancillary products for the refining, production, petrochemical, LNG, power, pharmaceutical, biogas, and other industries. ZEECO® products are designed to reduce emissions, optimize processing industries, and maximize operating efficiency while meeting all global environmental compliance requirements. Zeeco also provides comprehensive aftermarket parts, service, and engineered solutions as well as rental equipment. Zeeco’s worldwide headquarters is located on a 250-acre campus which includes a 100,000 ft<sup>2</sup> (9,290 m<sup>2</sup>) manufacturing facility, and the world’s largest, industrial-scale research and test facilities.
