

The easy multi-carrier shipping solution

Let us introduce you to EasyPost, your simple shipping partner. We provide the building blocks for thousands of companies, both small and large, to take their shipping to new heights. And you can achieve the same with our suite of APIs designed to make logistics easier every step of the way—from order placement to delivery and beyond.

Say hello to our suite of shipping APIs.

Address Verification

Confirm the accuracy of addresses across the globe to improve deliverability with CASS-certified verification.

Carbon Offset

Calculate carbon emissions from parcel delivery and purchase offsets to neutralize impact.

Shipping

Start printing labels in minutes with over 100 domestic, international, regional, and same-day carriers.

SmartRate

Get shipment time-in-transit estimates for all integrated carrier service levels using our SmartRate API.

Tracking

Get real-time shipment updates through custom branded tracking pages and webhook notifications.

Insurance

Protect your packages against damage, loss, or theft across all carriers, service levels, and countries.

Powered by EasyPost.

and more

Built to deliver.

Don't just take our word for it. The numbers speak for themselves.

of US households have received our shipments

As well as 200+ countries and territories

API uptime — the most reliable in the industry

More dependable than Stamps.com, Endicia and Pitney Bowes

discount on shipping for all customers

Take advantage of exclusive rates

1
billion

shipments created through EasyPost

Shipped by our network of 100+ carriers

With EasyPost, when you ship, you save. It's that simple.

Discounted rates

Access exclusive discounted rates with major carriers like USPS, FedEx, UPS, DHL, and many more without contracts, fees, or volume minimums.

Optimized rate shopping

SmartRate's optimization engine analyzes over a billion historical shipments to identify the cheapest rate that will get your shipment to its destination on time.

Reduce carbon footprint

EasyPost's Carbon Offset API is a simple one-time integration allowing you to purchase and offset your emissions within the API.

Shop PC Postage

As one of three PC Postage providers in the world, EasyPost users can access USPS Commercial Plus Pricing for free and print USPS labels even when their servers are down.

By developers, for developers.

Scalability

EasyPost's APIs are designed to scale up to meet the needs of the largest enterprise shippers during the peak season without delays, bottlenecks, or outages.

Reliability

Ship packages around the clock with EasyPost's 99.99% uptime—the most reliable in the industry.

100+ carriers.

Including regional, same-day, last-mile, and more coverage options.

and more

Seamless implementation

Our comprehensive client libraries support all of our API features across all major languages including C#, Go, Java, Node.js, PHP, Python, and Ruby.

Support

Our technical support team is staffed with engineers who can efficiently respond to technical questions and boasts a customer satisfaction score (CSAT) above 90%.
