05:53:44 Scott Kiessig - SciC | PocketLab: Twitch is the second highest website on the internet second only to Netflix!

05:53:47 Ash Bystrom: Attendees to the protests (over many cities, etc) utilized twitch to provide live streams from their phones, etc.

05:53:58 Robby Douthitt | PocketLab: If you didn't catch that Notebook with Neil lesson on the cause of the seasons in that last intermission you can check it out here while we wait:

05:56:21 Kimberly Stewart: My son streams his video games on youtube and twitch. There are a bunch of regular kids that watch him, sometimes the games they play, they can play together. They have been a support system for some of the kids to talk to. He had no idea that he would have so much responsibility.

05:56:28 Ash Bystrom: Interested in terms of teaching/learning - how is the communication interface between presenter and attendees done? there are drawbacks to discord and also InstagramLIVE, so how does Twitch facilitate this?

05:56:54 Scott Kiessig - SciC | PocketLab: Access a cheat sheet of Esports/game terminology here

06:01:07 Scott Kiessig - SciC | PocketLab: Drop your questions in the chat for the q&a section coming up!

06:02:27 Suzette Knowles: Thanks for the cheat sheet. I have to leave to go by my parents home. I enjoyed what I watched today and learn much about what is happening globally within the education arena. My country is behind in respect to technology in classrooms. This year we obtain some tablets but they are not of high quality. Will see how I can utilize some of these platforms in my day to day classroom activities to engage the students

06:04:32 NICOLE WEIL: Crossfit is all about "the Unknown and the Unknowable" about being prepared for anything and flexible when thrown for a loop. Science is all about that same quest for information and adjusting as more knowledge is gained.

06:11:59 Valeria Moreira: Exactly!

06:14:04 Sonam Tshering: of course..

06:14:08 Audrey WEI: Love your presentation!!

06:14:10 Carol Brieseman: From what age would you see this being used with? I've got some concerns about young kids using this - even though they could be capable

06:14:39 Jen Massey: YES! Y'all is the most inclusive. Y'all means all. As a Southerner, you're welcome.

06:14:48 Ana Carbonini: My favorite work too y'all I love it. I know it in South Caroline

06:15:42 Scott Kiessig - SciC | PocketLab: Judi- The recordings will be edited and published in the next couple weeks

06:15:49 Veronica Adame: what?!

06:16:04 Sonam Tshering: good cross fertilization of content and technology for learning..

06:16:39 MUHAMMAD IBRAHIM: A million dollars 🙄🙄🙄

06:16:51 Valeria Moreira: Helping each other...Learning together!

06:17:10 Rebecca Paynter: a Month!
(running around the house making my kids create content for twitch)

06:17:15 Valeria Moreira: Lol

06:17:24 Veronica Adame: me too

06:17:47 Rebecca Paynter: "come inside and get on that tablet!"

06:19:56 Missy Brosius: It's difficult to use platforms for 13+ b/c we have to get permissions from parents for all of that.

06:20:08 Mrs. Modica: Thank you Garvey!

06:20:28 Missy Brosius: Thank you

06:20:38 Sonam Tshering: thank you
