# ABOUT

Established in 1993, Security-Net™ is recognized as one of the world's finest security systems integrators. With headquarters located in Exton, PA, Security-Net™, Inc. maintains approximately 60 regional offices and 1,400 dedicated professionals positioned across the United States, Canada and abroad. Boasting a sustained reputation of excellence and innovation in the security integration industry, Security-Net™ supports and services both private industry and the Government sector with intelligent security system solutions.

After successfully implementing hundreds of integrated security systems for a wide spectrum of commercial entities, Security-Net™ continues to carefully select innovative advanced technology products and continually improve our services offerings to meet the emerging customer needs.

**We help you manage your risk and protect what is most important to you.**

## MISSION

**A network of North America's leading security systems integrators, global in reach, capability and experience while providing world class solutions to our clients.**

## THE FOUNDATION

At the core of our behavior and actions is the Foundation of Security-Net. Our Foundation determines "how" we act in every interaction, and each item is imperative throughout our activities and work together. Our Foundation is defined by the following three characteristics.

## INTEGRITY—COMMITMENT—COMMUNICATION
