

Hi [NAME],

I've found a management training course I'd like to take called "*The Next Level One-on-Ones Course*" that helps managers like myself empower their team members to succeed.

As a result of the course, I'll learn how to better communicate with my team and unlock their potential which will result in the entire team functioning at a higher level and contributing even more to the organization.

As you know, our team goals for the [Month, Quarter, Year, etc.] are [enter goals]. The *Next Level One-on-Ones* course will help me to better communicate those goals to my team, as well as share why the goals are important and how the work my team is doing helps move the needle on our goals.

Here's the breakdown of the info for the course:

- What's included: 30+ on-demand videos and 12, downloadable, action-oriented resources and a certificate of completion [based on the program you select, include: and a one-on-one coaching call with the course instructor. Or: and 4 one-on-one coaching calls with the course instructors as well as 5 group cohort calls where I can learn from like-minded managers]
- Cost: A one-time payment of [\$199, \$499 or \$1,999 based on program you select]
- You can find more information here: <https://offers.uptickapp.com/next-level-1-1s>

Please let me know if you have any questions, and I'd be more than happy to talk through it with you.

Best,
(your name)
