Sourcereer Acquires Precision Business Solutions

Ebensburg, PA, March 24, 2021: Yesterday, Sourcereer announced they have acquired Precision Business Solutions (PBS) allowing the organizations to join forces and help others succeed through the magic of technology and innovation! Brian Shrift, President and Owner of PBS, and Adam Murphy, President and Founder of Sourcereer, are Ebensburg natives and have been friends since the first grade. From biking the city streets, to hopping Brian's backyard fence to sneak into the county fair, helping start Wheels & Wings, obtaining Computer Science and Information Technology degrees, then becoming entrepreneurs...Adam and Brian have always shared a similar goal: to help others succeed.

Brian started PBS in 2003 out of his dorm room at Saint Francis University and brought Adam Murphy in as a partner the following year. They both started supporting small businesses in the area, while growing a staff of IT and Cyber Security experts. Adam exited PBS in 2008 to move to the DC area to support Defense projects. In late 2010, Adam started Sourcereer and then returned to the Johnstown area in 2015, bringing more Government program support back to the region. Both organization's headquarters are located in Ebensburg, PA. Over the years, Sourcereer and PBS have worked together on small projects. Brian has done a great job operating and expanding PBS for nearly two decades. In support of the transition, he will continue working with Sourcereer through the end of the year, before moving on to another opportunity.

Adam is thrilled to join forces stating, "Our services and capabilities are a great complement and together we will work to expand our service offerings and ultimately, create more jobs locally and beyond. This is extremely exciting for all of our employees and clients." Brian commented, "Sourcereer will bring strong leadership to PBS and together the companies will provide a robust back-office capability to clients and themselves."

Congressman Glenn 'GT' Thompson remarked on the acquisition, "I'm really pleased that Sourcereer, a company of high quality and innovation with a great success record, has acquired Precision Business Solutions. PBS has been a very important part of our community and our region for many years. The new partnership of working under the Sourcereer umbrella promises even better things for the employees and the customers at PBS."

With this acquisition, Sourcereer and PBS will be able to leverage each other's resources and provide increased access to experts in different areas for their combined client base.

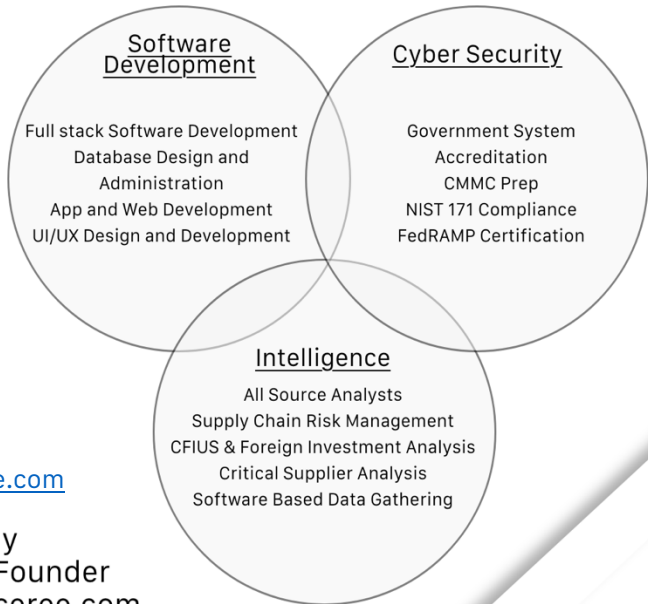

SOURCEREE

About Precision Business Solutions

Precision Business Solutions (PBS) provides Cyber Security, IT Management, and Support to federal and state government, as well as small and medium-sized businesses. They assist and supplement larger organizations with in-house IT departments, Cyber Security implementations and audits, and project management. PBS will keep its name for the time being until transitioning over to Sourcereer branding later this year.
