TO PREVENT  
THE SPREAD OF  
**COVID-19**

**C O N T I N U O U S  
S A N I T I Z A T I O N O F A I R**

The COVID-19 crisis generated new recommendations to safeguard people's health. Air sanitization is of great importance in this regard: a simple filter purifier cannot do the job, only a treatment that acts directly on bacteria and viruses is effective. **SanificaAria Beghelli** is the first patented system capable of performing this function continuously even in the presence of people.

# SanificaARIA

Beghelli

continuously sanitizes the  
air, providing a healthy  
environment for you.

**UV-CXY**<sup>®</sup>  
TECHNOLOGY

- UV-C lamps installed in SanificaAria do not generate harmful emissions into the air whilst in use.
- UV-C emission calibrated at 254 nano meter (nm), for maximum sanitization efficacy
- Sanitization in Mirror silver steel enclosed chamber for instant and continuous sanitization whilst people are present during use.
- UV-C lamps kill 99.9% of viruses and bacteria

#### VERSATILE INSTALLATION

#### LABORATORY TESTS

**99,9%**

PROVEN EFFECTIVENESS  
**ON VIRUSES  
AND BACTERIA**

The tests, carried out at accredited laboratories, demonstrate the germicidal efficacy of the entire system on a wide range of bacteria and Coronavirus. Their reduction, tested up to 99.9%, is the guarantee that **SanificaAria Beghelli** destroys Covid-19 with the same effectiveness.

TO PREVENT  
THE SPREAD OF  
**COVID-19**

allowing you to enjoy  
your everyday in  
complete serenity

## WHAT DOES IT MEAN TO SANITIZE THE AIR?

Sanitization consists of procedures and operations aimed at cleaning and/or disinfection and maintenance resulting in good air quality (source: Report ISS Covid-19 n.25/2020).

## WHAT DEVICES CAN I USE?

Traditional technologies are ozone generation and UV-C radiation, but they must be used in the absence of people and/or require proper ventilation to avoid harming people. Normal air purifiers are completely ineffective.

## CAN I SANITIZE THE AIR IN THE PRESENCE OF PEOPLE?

Yes. Sanifica Aria features the exclusive uvOxy® technology that safely destroys Viruses and Bacteria that is up to **99,9%** effective, and with no harm to people.

## ARE THE TESTS ON CORONAVIRUS AND BACTERIA RELIABLE?

The tests have been carried out in accredited laboratories that guarantee the results. This can be verified by visiting the website [geltinternational.it/tecnal/beghelli](http://geltinternational.it/tecnal/beghelli).

## WHAT IS THE MAXIMUM AREA THAT I CAN SANITIZE?

A Beghelli SanificaAria system is able to is able to sanitize the air in an environment of normal height, with a surface of up to more than 50 square meters, in just 4 hours of operation.

## IS IT EASY TO INST ALL?

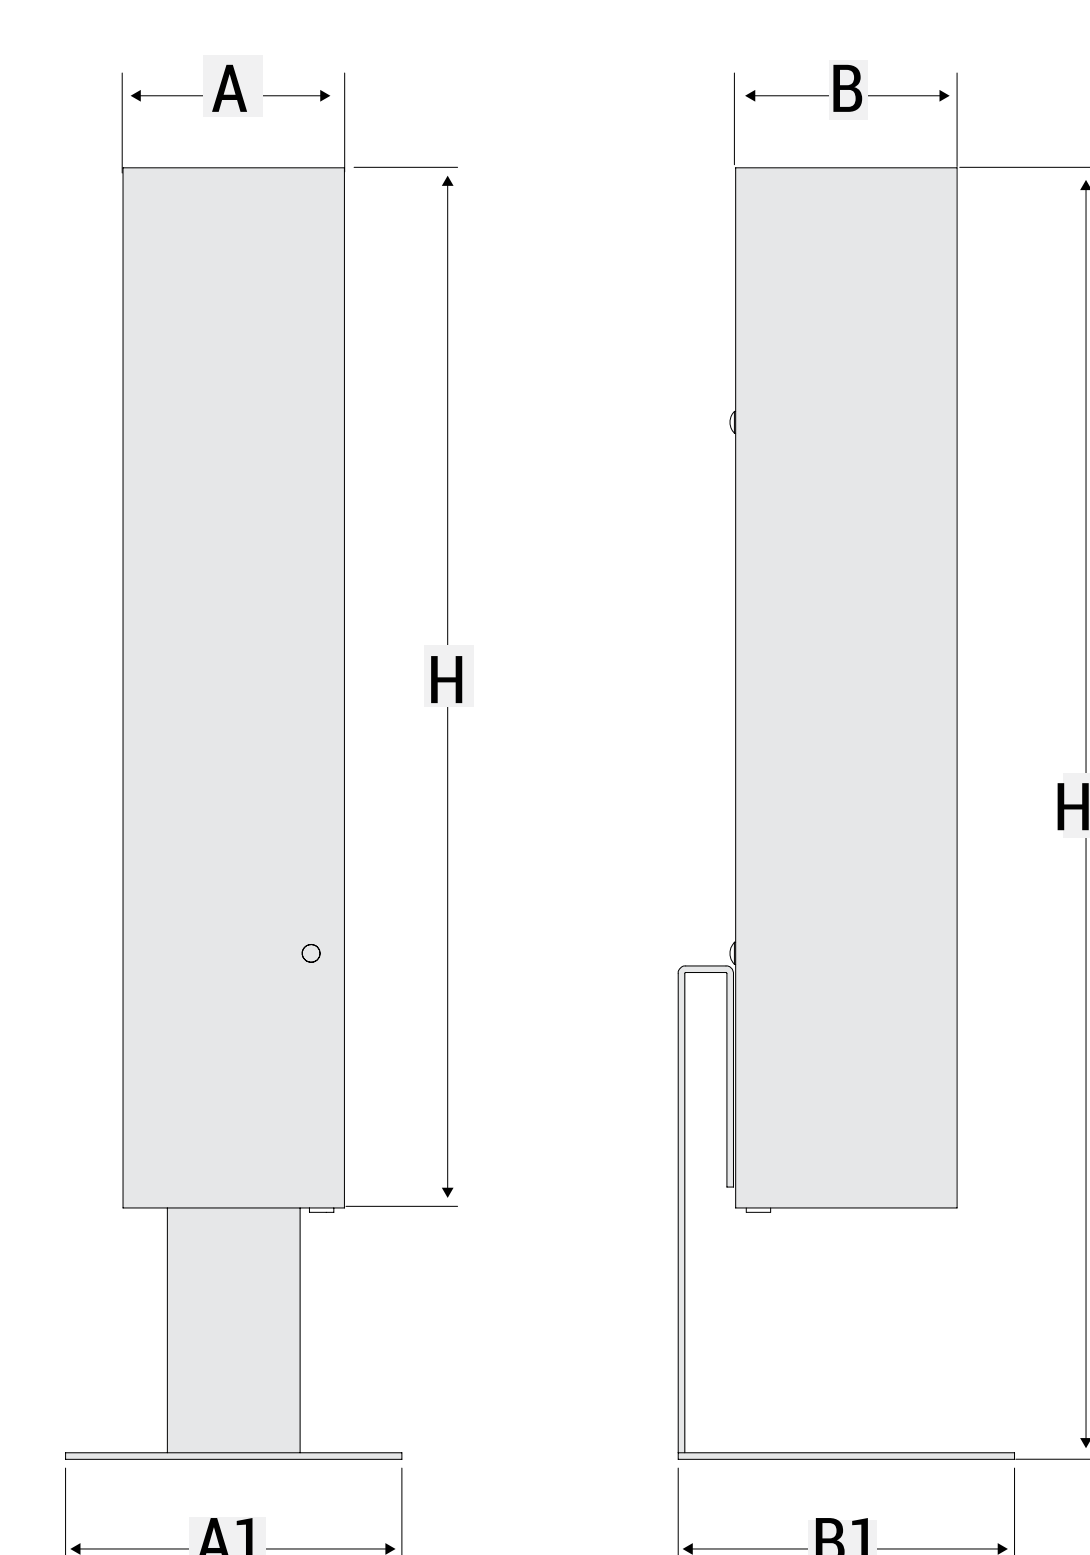

Simply plug in and tum it on. A support base is provided, but it can also be installed on the wall, on the ceiling or on the floor, without brackets.

## WHERE IS IT MOST EFFECTIVE TO INSTALL?

There are no limitations at home, in the office and in all business sectors with high-traffic areas such as bars, restaurants, shops, gyms, dental practices, schools, etc.

## DEVICE SUITABLE FOR ROOMS UP TO 50 m<sup>2</sup>

### EXAMPLE OF AIR SANITIZATION IN A ROOM

Room dimensions		
Surface m <sup>2</sup>	Cubic metres m <sup>3</sup>	Sanitization time h
6	15	0,5
13	30	1
25	60	2
38	90	3
50	120	4

Dimensions mm						Sanitization capacity
A	B	H	A1	B1	H1	
100	100	475	152	152	584	30 m <sup>3</sup> /h
