

Data Risk Management Platform

CAVELO

The first step to securing your business' data is to discover it.

Distributed IT, remote workforces and cloud adoption are changing the way we do business. As your collection, use and storage of sensitive data and Personal Information grows, so does your cybersecurity risk and compliance requirements.

Achieving compliance is time consuming, complicated and expensive, yet a data breach and non-compliance fines are costing businesses dollars and their reputation. The Cavelo platform and its all-in-one reporting capabilities make achieving compliance easier, saving your business time and money.

DISCOVER

Automatically uncover sensitive data.

SYNC

Manage data from popular cloud services.

CLASSIFY

Auto-classify Personal Information.

ACCESS

Get real-time data reporting snapshots.

TRACK

Set and get custom alerts when data moves.

MANAGE

Create custom policies, access audit reports and more.

Say goodbye to manual processes and complicated compliance reporting

Powered by machine learning, the Cavelo platform continuously scans your company's cloud applications, cloud hosted servers and on-prem servers and desktops to identify, classify, track, manage and report on sensitive data.

Custom policy creation aligns reporting to the regulatory frameworks and requirements that matter most to your business.

Score

Understand your risk with Cavelo's risk benchmarking, built using the NIST framework.

Customize

Tailor policies and alerts to the reporting requirements that matter.

Remediate

Identify your most vulnerable and costliest data so you can prioritize remediation efforts.

Report

Be prepared for compliance reporting with real-time reports and audit trails.

Pricing that's easy on your budget and right-sized for your business

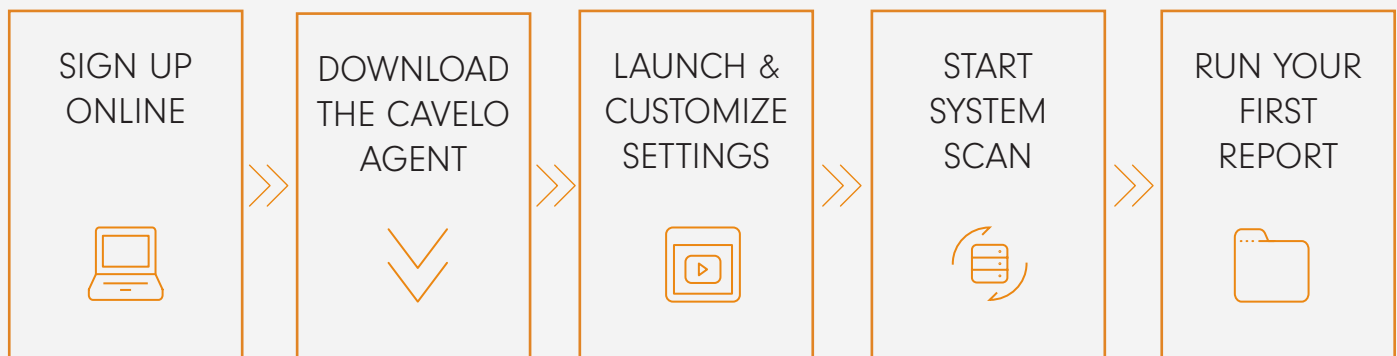

Depending on the type of business you offer and the industry you operate in your data requirements will vary. That's why CaveLO is a right-sized platform that can meet your needs today and scale with your business, regardless of how many data sources, cloud applications and endpoints connect to the network.

Try before you buy!

We're confident the CaveLO platform will change the way you think about data discovery and compliance reporting, which is why CaveLO is FREE to small businesses and available with flexible, affordable monthly subscription rates for businesses who need more discovery hosts.
