FUND SUMMARY

INVESTMENT OBJECTIVE

The Connors Hedged Equity Fund (the “Fund”) seeks to achieve capital appreciation and secondarily income generation, with lower volatility than U.S. equity markets.

FEES AND EXPENSES OF THE FUND

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.**

Shareholder Fees

(fees paid directly from your investment)

	Institutional Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends	None
Redemption Fee.....	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Institutional Class
Management Fees.....	0.80%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses ⁽¹⁾	1.00%
Administrative Services Plan Fees	0.10%
Other Expenses	0.90%
Total Annual Fund Operating Expenses	1.80%
Management Fee Reductions and/or Expense Reimbursements	(0.65%)
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements ⁽¹⁾	1.15%

(1) Connors Investor Services, Inc. (the “Adviser”) has contractually agreed, until March 31, 2026 to reduce Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (excluding brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, Acquired Fund Fees and Expenses, payments, if any, under a Rule 12b-1 Distribution Plan or Administrative Services Plan, extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund’s business) to 1.05% of the Fund’s average daily net assets of its Institutional Class shares. Management Fee reductions and expense

reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after the date that such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. Prior to March 31, 2026, this agreement may not be modified or terminated without the approval of the Board of Trustees (the “Board”). This agreement will terminate automatically if the Fund’s investment advisory agreement (the “Advisory Agreement”) with the Adviser is terminated.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, the operating expenses of the Fund remain the same and the contractual agreement to limit expenses remains in effect only until March 31, 2026. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$117	\$503	\$914	\$2,061

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. For the fiscal year ended November 30, 2024, the Fund’s portfolio turnover rate was 48%.

PRINCIPAL INVESTMENT STRATEGIES

Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities. In an effort to reduce volatility and generate income, the Fund will also write call options on a portion of the equity securities in the Fund’s portfolio. An option is a financial instrument that gives the holder the right, but not the obligation, to buy or sell a security at an agreed-upon price (“exercise price”). A call option gives the holder the right to buy a security at the exercise price. In other words, the Fund will sell call options on securities that it owns, giving the buyer of the call option the right to purchase that security from the Fund at the exercise price in exchange for payment of a premium by the call option purchaser.

The Fund seeks to invest in a diversified portfolio of equity securities, primarily comprised of common stocks of U.S. large-capitalization (i.e., companies that have market capitalizations of greater than \$10 billion at the time of initial purchase) and mid-capitalization companies (i.e., companies that have market capitalizations of between \$2 billion and \$10 billion at the time of initial purchase). The Fund typically invests in approximately 40-50 equity securities that are diversified among market

sectors. In selecting securities for the Fund, the Adviser emphasizes companies that exhibit one or more of the following characteristics: fundamental quality (i.e., companies that have had consistent growth over a long period of time, typically maintain lower levels of leverage, and often pay dividends), strong profitability (i.e., companies that have relatively high operating margin, return on invested capital, and/or return on equity), strong free cash flow generation, and proven management teams (i.e., companies that are led by experienced executives). As a result of its investment strategy, the Fund may engage in frequent trading of portfolio securities. The Adviser may determine to sell an equity security if the company is exhibiting deteriorating fundamentals or technical breakdowns, if there has been an alteration of the Adviser's initial investment thesis (i.e., there has been a change in the Adviser's outlook with respect to a particular security), if the holding reaches targets set by the Adviser or the Adviser determines such targets are not likely to be reached in a timely manner, or if the Adviser identifies other, more attractive opportunities.

The Fund generally seeks to have call options written on between 25%-75% of the Fund's equity holdings, but this can vary significantly depending upon the Adviser's investment outlook or as a result of other factors such as significant inflows into the Fund or rising equity markets resulting in options being exercised and portfolio securities being called away.

Depending on market conditions, the Fund may purchase put options or utilize put spreads on large-cap, broad-based securities indexes (such as the S&P 500®) to seek to offset some of the risk of a potential decline in value of the Fund's equity holdings. Buying a put option gives the Fund the right to sell a security, or in the case of an option on an index, sell the index, at the exercise price, thereby seeking to limit the Fund's downside risk to the level of the exercise price. A put spread is an option strategy whereby the Fund purchases a put option and also sells a put option on the same underlying security or index at different exercise prices. By using this combination of option positions, the Adviser seeks to protect the Fund against a decline in the price of the underlying security or index, while using the premium from the sale of the put option as a way to offset some of the cost of purchasing the first option. In addition, the Fund may also purchase and sell put and call options on individual securities for investment purposes, to hedge other investments, or to generate additional option premiums for the Fund. The Fund may sell calls or buy puts on individual securities that the Fund does not hold in its portfolio (i.e., "naked" options), which have the potential for unlimited loss.

The Fund will typically hold a portion of its assets in cash or cash equivalent securities, including short-term debt securities, repurchase agreements and money market mutual fund shares ("Money Market Instruments") in order to maintain liquidity or pending the selection of investments. Periodically, the Fund may also invest up to 100% of its assets in Money Market Instruments for temporary defensive purposes.

PRINCIPAL INVESTMENT RISKS

As with any mutual fund investment, there is a risk that you could lose money by investing in the Fund. The success of the Fund's investment strategy depends largely upon the Adviser's skill in selecting securities for purchase and sale by the Fund and there is no assurance that the Fund will achieve its investment objective. Because of the types of securities in which the Fund invests and the investment techniques the Adviser uses, the Fund is designed for investors who are investing for the long term. The Fund is not intended to be complete investment program. The principal risks of an investment in the Fund are generally described below.

Market Risk. Market risk is the risk that the value of the securities in the Fund's portfolio may decline due to daily fluctuations in the securities markets that are generally beyond the Adviser's control, including fluctuation in interest rates, the quality of the Fund's investments, economic conditions and general bond market conditions. Certain market events could increase volatility and exacerbate market risk, such as changes in governments' economic policies, political turmoil, environmental events, trade disputes, and epidemics, pandemics, or other public health issues. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed income markets may negatively affect many issuers domestically and/or worldwide, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could change drastically and with rapidity and therefore adversely affect the Fund.

Equity Securities Risk. The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual issuers, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses.

Large-Cap Company Risk. Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Mid-Cap Company Risk. Investing in mid-capitalization companies involves greater risk than is customarily associated with larger, more established companies. Mid-cap companies frequently have less management depth and experience, narrower market penetrations, less diverse product lines, less competitive strengths and fewer resources. Due to these and other factors, stocks of mid-cap companies may be more susceptible to market downturns and other events, less liquid, and their prices may be more volatile.

Active Management Risk. Due to the active management of the Fund by the Adviser, the Fund could underperform other funds with similar investment objectives and strategies.

Investment Style and Management Risk. The Adviser's method of security selection may not be successful and the Fund may underperform relative to other mutual funds that employ similar investment strategies. The Fund's asset allocation style may not be implemented successfully, negatively affecting the Fund's performance. In addition, the Adviser may select investments that depreciate or fail to appreciate as anticipated.

Options Risk. Investments in options involve risks different from, or possibly greater than, the risks associated with investing directly in the underlying securities. The value of the Fund's option positions will fluctuate in response to changes in the value of the underlying security or index. Options purchased by the Fund may expire "out of the money" and become worthless. A call option is out of the money if the current price of the underlying security or index is lower than the exercise price. A put option is out of the money if the current price of the underlying security or index is higher than the exercise price. Options can be used in a speculative manner such that the Fund's ability to utilize options successfully would depend on the ability of the Adviser to correctly predict future price fluctuations, which cannot be assured. There are significant differences between the securities and options markets that could result in an imperfect correlation among these markets, causing a given transaction not to achieve its objectives. When the Fund writes covered call options, the premium received for writing the call option generates income to the Fund; however, the Fund's participation in gains above the sum of the premium and the exercise price of the call are forfeited in return for receiving the call option premium while the Fund retains the risk of a decline in value of the underlying security or index. The premiums received from the options may not be sufficient to offset any losses sustained from the volatility of the underlying securities or index over time. In addition, the Fund's ability to sell the underlying securities will be limited while the option is in effect unless the Fund extinguishes the option position through the purchase of an offsetting identical option prior to the expiration of the written option. The Fund's options will also be subject to the risk that exchanges may suspend the trading of options in volatile markets, in which case the Fund may be unable to write options at times that may be desirable or advantageous to the Fund to do so. There is no guarantee that a market will exist for buying or selling options at the time the Fund wishes to do so. To the extent the Fund writes options on individual securities that it does not hold in its portfolio (i.e., "naked" options), it is subject to the risk that a liquid market for the underlying security may not exist at the time an option is exercised or when the Fund otherwise seeks to close out an option position. Naked call options, in particular, have speculative characteristics and the potential for unlimited loss.

Portfolio Turnover Risk. Frequent and active trading may result in higher transaction costs to the Fund, including brokerage commissions, which may lower the Fund's performance and may result in the realization of capital gains, including net short-term capital gains, which must generally be distributed to shareholders. Therefore, high portfolio turnover may reduce the Fund's returns and increase taxable distributions to shareholders.

Money Market Fund Risk. An investment in a money market fund is not a bank deposit and is not insured or guaranteed by any bank or any government agency. It is possible for the Fund to lose money by investing in money market funds. The value of money market instruments may be affected by changing interest rates and by changes in the credit ratings of the investments held by the money market fund. If the liquidity of a money market fund’s portfolio deteriorates below certain levels, the money market fund may suspend redemptions and thereby prevent the Fund from selling its investment in the money market fund or impose a fee of up to 2% on amounts the Fund redeems from the money market fund. These measures may result in an investment loss or prohibit the Fund from redeeming shares when the Adviser would otherwise redeem shares.

PERFORMANCE SUMMARY

The bar chart and table that follow provide some indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual returns for 1 year and since-inception periods compared with those of a broad measure of market performance. Please remember that the Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Performance information, current through the most recent month end, is available by calling 833-601-2676 or by visiting the Fund’s website at www.connorsinvestor.com/mutual-funds.

Annual Total Return for Years Ended December 31

Highest Quarter:	12/31/2023	8.98%
Lowest Quarter:	09/30/2023	-2.43%

Performance Table Average Annual Total Returns
(For the year ended December 31, 2023)

Class I Shares	One Year	Since Inception⁽¹⁾
Return Before Taxes	18.28%	9.26%
Returns After Taxes on Distributions	17.88%	9.02%
Returns After Taxes on Distributions and Sale of Fund Shares	11.11%	7.18%
S&P 500® Total Return Index ⁽²⁾	25.02%	10.96%
CBOE S&P 500® BuyWrite Index ⁽³⁾	20.12%	21.49%

- (1) The Fund commenced operations on January 19, 2022.
- (2) The S&P 500® Total Return Index is a widely recognized unmanaged index of equity prices and is representative of a broader market and range of securities than is found in the Fund's portfolio. The index is an unmanaged benchmark that assumes reinvestment of all distributions and excludes the effect of taxes and fees. Investors cannot invest directly in an index.
- (3) The CBOE S&P 500 BuyWrite IndexSM (BXM) is a passive total return index based on (1) buying an S&P 500 stock index portfolio, and (2) "writing" (or selling) the near-term S&P 500 Index (SPXSM) "covered" call option, generally on the third Friday of each month. An investor cannot invest directly in an index.

After-tax returns are based on the highest historical individual U.S. federal marginal income tax rates, and do not reflect the impact of state and local taxes; actual after-tax returns depend on an individual investor's tax situation and may differ from those shown. If you own shares of the Fund in a tax-deferred account, such as an individual retirement account ("IRA") or a 401(k) plan, after-tax returns are not applicable to your investment. A higher after-tax return results when a capital loss occurs upon redemption and translates into an assumed tax deduction that benefits the shareholder.

MANAGEMENT OF THE FUND

Connors Investor Services, Inc. is the Fund's investment adviser. The following Portfolio Managers are primarily and jointly responsible for the day-to-day management of the Fund:

Portfolio Managers	Investment Experience with the Fund	Primary Title with Adviser
Robert Cagliola	Since January, 2022	Vice President
Robert Hahn	Since January, 2022	Vice President

PURCHASE AND SALE OF FUND SHARES

Minimum Initial Investment

For Institutional Class shares, the minimum investment amount is \$25,000 for all regular accounts.

Minimum Additional Investment

For Institutional Class shares, the minimum additional investment amount is \$1,000 for all regular accounts.

General Information

You may purchase or redeem (sell) shares of the Fund on each day that the New York Stock Exchange (“NYSE”) is open for business. Transactions may be initiated by written request, by telephone or through your financial intermediary. Written requests to the Fund should be sent to the Connors Hedged Equity Fund, c/o Ultimus Fund Solutions, LLC, P.O. Box 541150, Omaha, Nebraska 68154. For more information about purchasing and redeeming shares, please see “How to Buy Shares” and “How to Redeem Shares” in this Prospectus or call 833-601-2676 for assistance.

TAX INFORMATION

The Fund’s distributions are generally taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. Such tax-deferred arrangements may be taxed later upon withdrawal of monies from those arrangements.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or any other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. These payments are sometimes referred to as “revenue sharing”. Ask your salesperson or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION REGARDING THE FUND'S INVESTMENT OBJECTIVE, PRINCIPAL INVESTMENT STRATEGIES AND PRINCIPAL RISKS

Investment Objective

The Connors Hedged Equity Fund (the “Fund”) seeks to achieve capital appreciation and secondarily income generation, with lower volatility than U.S. equity markets. The Fund’s Board of Trustees (the “Board”) has reserved the right to change the investment objective of the Fund without shareholder approval upon at least 60 days’ prior written notice to shareholders.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities. The foregoing 80% policy may be changed by a vote of the Board, without the approval of shareholders, upon at least 60 days’ prior notice to shareholders.

In an effort to reduce volatility and generate income, the Fund will also write call options on a portion of the equity securities in the Fund’s portfolio. In other words, the Fund will sell call options on securities that it owns, giving the buyer of the call option the right to purchase that security from the Fund at the exercise price in exchange for payment of a premium by the call option purchaser.

The Fund seeks to invest in a diversified portfolio of equity securities, primarily comprised of common stocks of U.S. large-capitalization (i.e., companies that have market capitalizations of greater than \$10 billion at the time of initial purchase) and mid-capitalization companies (i.e., companies that have market capitalizations of between \$2 billion and \$10 billion at the time of initial purchase). The Fund typically invests in approximately 40-50 equity securities that are diversified among market sectors. In selecting securities for the Fund, the Adviser emphasizes companies that exhibit one or more of the following characteristics: fundamental quality (i.e., companies that have had consistent growth over a long period of time, typically maintain lower levels of leverage, and often pay dividends), strong profitability (i.e., companies that have relatively high operating margin, return on invested capital, and/or return on equity), strong free cash flow generation, and proven management teams (i.e., companies that are led by experienced executives). As a result of its investment strategy, the Fund may engage in frequent trading of portfolio securities. The Adviser may determine to sell an equity security if the company is exhibiting deteriorating fundamentals or technical breakdowns, if there has been an alteration of the Adviser’s initial investment thesis (i.e., there has been a change in the Adviser’s outlook with respect to a particular security), if the holding reaches targets set by the Adviser or the Adviser determines such targets are not likely to be reached in a timely manner, or if the Adviser identifies other, more attractive opportunities.

The Fund generally seeks to have call options written on between 25%-75% of the Fund's equity holdings, but this can vary significantly depending upon the Adviser's investment outlook or as a result of other factors such as significant inflows into the Fund or rising equity markets resulting in options being exercised and portfolio securities being called away. Depending on market conditions, the Fund may purchase put options or utilize put spreads on large-cap, broad-based securities indexes (such as the S&P 500®) to seek to offset some of the risk of a potential decline in value of the Fund's equity holdings. Buying a put option gives the Fund the right to sell a security, or in the case of an option on an index, sell the index, at the exercise price, thereby seeking to limit the Fund's downside risk to the level of the exercise price. A put spread is an option strategy whereby the Fund purchases a put option and also sells a put option on the same underlying security or index at different exercise prices. By using this combination of option positions, the Adviser seeks to protect the Fund against a decline in the price of the underlying security or index, while using the premium from the sale of the put option as a way to offset some of the cost of purchasing the first option.

The Fund will typically hold a portion of its assets in cash or cash equivalent securities, including short-term debt securities, repurchase agreements and money market mutual fund shares ("Money Market Instruments"). The Fund may invest in Money Market Instruments to maintain liquidity or pending the selection of investments. From time to time, the Fund also may, but should not be expected to, take temporary defensive positions in attempting to respond to adverse market, economic, political or other conditions, and in doing so, may invest up to 100% of its assets in Money Market Instruments. To the extent the Fund holds other registered investment companies, including money market mutual funds, the Fund will incur acquired fund fees and expenses (as defined by the SEC). Anytime the Fund takes a temporary defensive position, it may not achieve its investment objective.

Additional Information About Principal Risks

Active Management Risk. Due to the active management of the Fund by the Adviser, the Fund could underperform other funds with similar investment objectives and strategies. The Adviser's method of security selection may not be successful. In addition, the Adviser may select investments that fail to perform as anticipated. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgments about the attractiveness, value, and potential income and/or capital appreciation of a particular investment for the Fund will be correct or produce the desired results.

Equity Securities Risk. The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual issuers, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of equity securities will likely decline.

Large-Cap Company Risk. Large-capitalization companies are generally more mature and may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Mid-Cap Company Risk. Investing in the securities of mid-cap companies generally involves greater risk than investing in larger, more established companies. This greater risk is, in part, attributable to the fact that the securities of mid-cap companies usually have more limited marketability and, therefore, may be more volatile than securities of larger, more established companies or the market averages in general. Because mid-cap companies normally have fewer shares outstanding than larger companies, it may be more difficult to buy or sell significant amounts of such shares without an unfavorable impact on prevailing prices (i.e., shares of mid-cap companies may be less liquid relative to shares of large-cap companies). Another risk factor is that mid-cap companies often have limited product lines, markets, or financial resources and may lack management depth. Additionally, mid-cap companies are typically subject to greater changes in earnings and business prospects than are larger, more established companies. Mid-cap companies may not be well-known to the investing public, may not be followed by the financial press or industry analysts, and may not have institutional ownership. These factors affect the Adviser's access to information about the companies and the stability of the markets for the companies' securities. Mid-cap companies may be more vulnerable than larger companies to adverse business or economic developments. If the companies do not succeed, the prices of the companies' shares could dramatically decline in value.

Investment Style and Management Risk. The Adviser's method of security selection may not be successful and the Fund may underperform relative to other mutual funds that employ similar investment strategies. The Fund's style may go out of favor with investors, negatively affecting the Fund's performance. In addition, the Adviser may select investments that fail to appreciate as anticipated. The ability of the Fund to meet its investment objective is directly related to the success of the Adviser's investment process and there is no guarantee that the Adviser's judgments about the attractiveness, value and potential appreciation of a particular investment for the Fund will be correct or produce the desired results.

Market Risk. Investments in securities and other investments in general are subject to market risks that may cause their prices to fluctuate over time. Investments may decline in value due to factors affecting securities markets generally, or particular countries, segments, economic sectors, industries or companies within those markets. The value of a security may decline due to general economic, political and market conditions that are not specifically related to a particular issuer, such as real or perceived adverse economic conditions or changes in interest or currency rates. During those periods, the Fund may experience high levels of shareholder redemptions, and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities may be difficult to value during such periods. Fluctuations in the value of the Fund's securities (which may be material on a daily, weekly, monthly or other basis) will cause the NAV of the Fund to fluctuate. Certain market events could increase volatility and exacerbate market risk, such as changes in governments' economic policies, political

turmoil, environmental events, trade disputes, and epidemics, pandemics or other public health issues. For example, the novel coronavirus disease (COVID-19) that emerged in 2020 resulted in closing borders, quarantines, cancellations, disruptions to supply chains and customer activity, and company closings and product cutbacks, as well as general concern and uncertainty, thus causing significant disruptions to global business activity and financial markets, the broad effects of which are currently difficult to assess. Turbulence in financial markets, and reduced liquidity in equity, credit and fixed income markets may negatively affect many issuers domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could fall drastically and rapidly and therefore adversely affect the Fund.

Options Risk. There are significant differences between the securities and options markets that could result in an imperfect correlation among these markets, causing a given transaction not to achieve its objectives. The Fund's ability to utilize options successfully will depend on the Adviser's ability to predict pertinent market movements, which cannot be assured. The Fund's ability to close out its position as a purchaser or seller of an exchange-listed put or call option is dependent, in part, upon the liquidity of the options market. If the Fund were unable to close out an option that it had purchased on a security, it would have to exercise the option to realize any profit or the option would expire and become worthless. If the Fund were unable to close out a covered call option that it had written on a security, it would not be able to sell the underlying security until the option expired.

As the writer of a covered call option on a security, the Fund foregoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the exercise price of the call. The hours of trading for listed options may not coincide with the hours during which the underlying financial instruments are traded. To the extent that the option markets close before the markets for the underlying financial instruments, significant price and rate movements can take place in the underlying markets that cannot be reflected in the option markets until the next trading day.

The Fund may also purchase or write over-the-counter put or call options, which involves risks different from, and possibly greater than, the risks associated with exchange-listed put or call options. In some instances, over-the-counter put or call options may expose the Fund to the risk that a counterparty may be unable or unwilling to perform according to a contract, and that any deterioration in a counterparty's creditworthiness could adversely affect the instrument. Unless the parties provide for it, there is no central clearing or guaranty function in an over-the-counter option. As a result, if the counterparty fails to make or take delivery of the security or other instrument underlying an over-the-counter option it has entered into with the Fund or fails to make a cash settlement payment due in accordance with the terms of that option, the Fund will lose any premium it paid for the option as well as any anticipated benefit of the transaction. The Adviser must assess the creditworthiness of each such counterparty or any guarantor or credit enhancement of the counterparty's credit to determine the likelihood that the terms of the over-the-counter option will be satisfied. Options can also be used to allow the Fund to gain exposure that is significantly greater than the premium paid to acquire the option, which can result in greater volatility and have a significant impact on the Fund's performance.

The Fund may purchase or write put or call options in combinations, including, without limitation, spreads, straddles and collars. Because combined options positions involve multiple trades, they result in higher transaction costs and may be more difficult to open and close out. In “spread” transactions, the Fund buys and writes a put or buys and writes a call on the same underlying instrument with the options having different exercise prices, expiration dates, or both. In “straddles,” a Fund purchases a put option and a call option or writes a put option and a call option on the same instrument with the same expiration date and the same exercise price. When a Fund engages in spread and straddle transactions, it seeks to profit from differences in the option premiums paid and received and in the market prices of the related options positions when they are closed out or sold. Because these transactions require the Fund to buy and/or write more than one option simultaneously, the Fund’s ability to enter into such transactions and to liquidate its positions when necessary or deemed advisable may be more limited than if the Fund were to buy or sell a single option. Similarly, costs incurred by the Fund in connection with these transactions will in many cases be greater than if the Fund were to buy or sell a single option. A Fund also may use option “collars.” A “collar” position combines a put option purchased by the Fund (the right of the Fund to sell a specific security within a specified period) with a call option that is written by the Fund (the right of the counterparty to buy the same security) in a single instrument. The Fund’s right to sell the security is typically set at a price that is below the counterparty’s right to buy the security. Thus, the combined position “collars” the performance of the underlying security, providing protection from depreciation below the price specified in the put option, and allowing for participation in any appreciation up to the price specified by the call option. In each case, the premium received for writing an option offsets, in part, the premium paid to purchase the corresponding option, however, downside protection may be limited as compared to just owning a single option. Also, certain option combinations, such as straddles, may be subject to special tax rules.

Portfolio Turnover. High portfolio turnover rates will generally result in higher transaction costs to the Fund, including brokerage commissions, which may result in greater expenses to the Fund and reduce the Fund’s returns. High portfolio turnover may also result in realization of capital gains, including short-term capital gains, which may have additional tax consequences to the Fund’s shareholders. Portfolio turnover will not be a factor in making buy and sell decisions for the Fund.

Money Market Funds. The Fund may invest in underlying money market funds that either seek to maintain a stable \$1 NAV (“stable NAV money market funds”) or that have a share price that fluctuates (“variable NAV money market funds”). Although an underlying stable NAV money market fund seeks to maintain a stable \$1 NAV, it is possible for the Fund to lose money by investing in such a money market fund. Because the share price of an underlying variable NAV money market fund will fluctuate, when the Fund sells the shares it owns they may be worth more or less than what the Fund originally paid for them. In addition, neither type of money market fund is designed to offer capital appreciation. Certain underlying money market funds may impose a fee upon the sale of shares or may temporarily suspend the ability to sell shares if such fund’s liquidity falls below required minimums.

In addition to the strategies and risks described above, the Fund may invest in other types of securities whose risks are described below or in the Fund's Statement of Additional Information ("SAI").

CFTC Regulation Risk. To the extent the Fund makes investments regulated by the Commodity Futures Trading Commission (the "CFTC"), the Fund intends to do so in accordance with Rule 4.5 under the Commodity Exchange Act, as amended (the "CEA"). The Adviser, on behalf of the Fund, has filed a notice of eligibility for exclusion from the definition of the term "commodity pool operator" in accordance with Rule 4.5 and therefore, the Adviser is not subject to registration or regulation as a commodity pool operator under the CEA. If the Adviser is unable to comply with the requirements of Rule 4.5, the Fund may be required to modify the Fund's investment strategies or be subject to CFTC registration requirements, either of which may have an adverse effect on the Fund.

Additional Information. Whether the Fund is an appropriate investment for an investor will depend largely upon the investor's financial resources and individual investment goals and objectives.

Portfolio Holdings and Disclosure Policy. A description of the Fund's policies and procedures with respect to the disclosure of its portfolio holdings is available in the Fund's SAI and on the Fund's website at www.connorsinvestor.com/mutual-funds.

FUND MANAGEMENT

The Investment Adviser

Connors Investor Services, Inc., located at 1210 Broadcasting Road, Suite 200, Wyomissing, PA 19610, serves as the investment adviser to the Fund. Pursuant to the Advisory Agreement, the Adviser provides the Fund with a continuous program of investing the Fund's assets and determining the composition of the Fund's portfolio. Subject to the authority of, and any policies established by, the Board, the Adviser is responsible for formulating the Fund's investment program, making day-to-day investment decisions and engaging in portfolio transactions. The Adviser is a corporation organized under the laws of Delaware, began operations in 1969, and provides investment advisory services to institutions, foundations, non-profit organizations and high net worth individuals. As of November 30, 2024, the Adviser had approximately \$1.2 billion in assets under management.

For its services, the Fund pays the Adviser a monthly investment advisory fee (the "Management Fee") computed at the annual rate of 0.80% of its average daily net assets. The Adviser has contractually agreed under an expense limitation agreement (the "Expense Limitation Agreement"), until March 31, 2026 to reduce its Management Fees and reimburse Other Expenses to the extent necessary to limit Total Annual Fund Operating Expenses (excluding brokerage costs; taxes; interest; borrowing costs such as interest and dividend expenses on securities sold short, Acquired Fund Fees and Expenses; payments, if any, under a Rule 12b-1 Distribution Plan or Administrative Services Plan, extraordinary expenses such as litigation and merger or reorganization

costs, and other expenses not incurred in the ordinary course of the Fund's business) to 1.05% of the Fund's average daily net assets of its Institutional Class shares. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund for a period of three years after the date that such fees and expenses were incurred, provided that the repayments do not cause Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation in effect at the time the expenses to be repaid were incurred. Prior to March 31, 2026 this agreement may not be modified or terminated without the approval of the Board. After March 31, 2026, the Expense Limitation Agreement may continue from year-to-year provided such continuance is approved by the Board. The Expense Limitation Agreement may be terminated by the Adviser, or the Board, without approval by the other party, at the end of the then current term upon not less than 90 days' notice to the other parties as set forth in the Expense Limitation Agreement. The Expense Limitation Agreement will terminate automatically if the Fund's Advisory Agreement with the Adviser is terminated. The aggregate fee paid to the Adviser for the most recent fiscal year was 0.80% of the Fund's average net assets.

A discussion of the factors considered by the Board in its approval of the Fund's Advisory Agreement with the Adviser, including the Board's conclusions with respect thereto, is available in the Fund's Semi-Annual report for the period ended May 31, 2024. You may obtain a copy of the Semi-Annual Report free of charge, upon request to the Fund.

Portfolio Managers

The following individuals have primary and joint responsibility for day-to-day management of the Fund's portfolio:

Robert J. Cagliola. Mr. Cagliola is a Vice President of the Adviser. Among other things, Mr. Cagliola is co-portfolio manager for the Adviser's Covered Call Strategy. Mr. Cagliola has been with the Adviser since 1999, and prior to that time he was employed by Miller Anderson & Sherrerd, an asset management firm in West Conshohocken, PA, and as a Portfolio Analyst with SEI Investment Co. in Wayne, PA. Mr. Cagliola received a BS/BA degree in Finance and Economics from Shippensburg University in 1989, an MBA from Temple University in 1995, and is a Chartered Financial Analyst charter holder.

Robert W. Hahn. Mr. Hahn is a Vice President of the Adviser. Among other things, Mr. Hahn is co-portfolio manager for the Adviser's Covered Call strategy. Mr. Hahn has been with the Adviser since 2017, and prior to that time he worked in equity research at Raymond James, a brokerage firm in St. Petersburg, FL and as a Senior Equity Analyst with Eagle Asset Management in St. Petersburg, FL. Mr. Hahn received undergraduate and graduate degrees in Electrical Engineering from Villanova University, an MBA from Indiana University, and is a Chartered Financial Analyst charter holder.

The SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers and their ownership of shares of the Fund.

Administrative Services Plan

The Trust has adopted an Administrative Services Plan (the “Administrative Service Plan”) for the Institutional Shares of the Fund. The Administrative Service Plan allows the Fund to use the net assets of the Institutional Shares to pay financial intermediaries that provide services relating to Institutional Shares. The Administrative Service Plan permits payments for the provision of certain administrative, recordkeeping and other non-distribution related services to Institutional Share shareholders. The Administrative Service Plan permits the Fund to make service fee payments at an annual rate of up to 0.10% of the Fund’s average daily net assets attributable to its Institutional Shares. Because these fees are paid out of the assets of the Institutional Shares on an ongoing basis, over time they will increase the cost of an investment in Institutional Shares.

The Administrator and Transfer Agent

Ultimus Fund Solutions, LLC (“Ultimus”, the “Administrator”, or the “Transfer Agent”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Fund’s administrator, transfer agent and fund accounting agent. Management and administrative services provided to the Fund by Administrator include (i) providing office space, equipment and officers and clerical personnel to the Fund, (ii) obtaining valuations, calculating net asset values and performing other accounting, tax and financial services, (iii) recordkeeping, (iv) regulatory reporting services, (v) processing shareholder account transactions and disbursing dividends and distributions, and (vi) administering custodial and other third party service provider contracts on behalf of the Fund.

The Distributor

Ultimus Fund Distributors, LLC (the “Distributor”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the Fund’s principal underwriter and serves as the exclusive agent for the distribution of the Fund’s shares. The Distributor may sell the Fund’s shares to or through qualified securities dealers or other approved entities.

The SAI has more detailed information about the Adviser and other service providers to the Fund.

HOW THE FUND VALUES ITS SHARES

The net asset value (“NAV”) of the Fund is calculated as of the close of regular trading on the NYSE (generally 4:00 p.m., Eastern Time) on each day that the NYSE is open for business. Currently, the NYSE is closed on weekends and in recognition of the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. To calculate NAV, the Fund’s assets are valued and totaled, liabilities are subtracted, and the balance is divided by the number of shares outstanding. The Fund generally values its portfolio securities at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Exchange traded options are valued at the mean between the current bid and ask prices on the exchange on which such options are traded. However, if market quotations are not available or are considered unreliable due to market or other events, portfolio securities will be valued at their fair values, as of the close of regular trading on the NYSE, as determined by the Adviser in good faith in accordance with the guidelines established by the Fund’s Board of Trustees (the “Board”). When fair value pricing is employed, the prices of securities used to calculate the Fund’s NAV are based on the consideration by the Adviser of a number of subjective factors and therefore may differ from quoted or published prices for the same securities. To the extent the assets of the Fund are invested in other registered investment companies that are not listed on an exchange, the Fund’s NAV is calculated based upon the NAVs reported by such registered investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

Your order to purchase or redeem shares is priced at the NAV next calculated after your order is received in proper form by the Fund. An order is considered to be in “proper form” if it includes all necessary information and documentation related to the purchase or redemption request, and, if applicable, payment in full of the purchase amount.

HOW TO BUY SHARES

Shares are available for purchase from the Fund every day the NYSE is open for business, at the NAV next calculated after receipt of a purchase order in proper form. The Fund reserves the right to reject any purchase request and/or suspend its offering of shares at any time. Investors who purchase shares through a broker-dealer or other financial intermediary may be charged a fee by such broker-dealer or intermediary. The Fund mails you confirmations of all purchases or redemptions of Fund shares if shares are purchased directly through the Fund. Certificates representing Fund shares are not issued.

The Fund currently offers one class of shares: Institutional Class shares. The Fund may offer additional classes of shares in the future.

Minimum Initial Investment

The minimum initial investment for all accounts in the Fund is \$25,000 for the Institutional Class shares. This minimum initial investment requirement may be waived or reduced for any reason at the discretion of the Fund.

Opening an Account

An account may be opened by mail or bank wire if it is submitted in proper form, as follows:

By Mail. To open a new account by mail:

- Complete and sign the account application.
- Enclose a check payable to the Fund.
- Mail the application and the check to the Transfer Agent at the following address:

Regular Mail

Connors Hedged Equity Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, Ohio 45246-0707

Overnight Mail

Connors Hedged Equity Fund
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, OH 45246

Shares will be issued at the NAV next computed after receipt of your application, in proper form, and check. All purchases must be made in U.S. dollars and checks must be drawn on U.S. financial institutions. The Fund does not accept cash, drafts, “starter” checks, travelers checks, credit cards or credit card checks, post-dated checks, U.S. Treasury checks, non-U.S. financial institution checks, cashier’s checks under \$10,000, or money orders. Cash, third party checks (except for properly endorsed IRA rollover checks), counter checks, starter checks, traveler’s checks, money orders, credit card checks, and checks drawn on non-U.S. financial institutions will not be accepted. Cashier’s checks bank official checks, and bank money orders are reviewed on a case-by-case basis and may be accepted under certain circumstances. In addition, the Fund does not accept checks made payable to third parties. When shares are purchased by check, the proceeds from the redemption of those shares will not be paid until the purchase check has been converted to federal funds, which could take up to 15 calendar days from the date of purchase. If an order to purchase shares is canceled because your check does not clear, you will be responsible for any resulting losses incurred by the Fund or the Transfer Agent in the transaction. The Transfer Agent will charge a \$25 fee against a shareholder’s account for any check or electronic payment returned to the transfer agent for insufficient funds. Redemptions of shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, Shares may be purchased through a broker or by wire, as described in this section.

By sending your check to the Transfer Agent, please be aware that you are authorizing the Transfer Agent to make a one-time electronic debit from your account at the financial institution indicated on your check. Your bank account will be debited as early as the same day the Transfer Agent receives your payment in the amount of your check; no additional amount will be added to the total. The transaction will appear on your bank statement. Your original check will be destroyed once processed, and you will not receive your canceled check back. If the Transfer Agent cannot post the transaction electronically, you authorize the Transfer Agent to present an image copy of your check for payment.

By Wire. To open a new account by wire of federal funds, call the Transfer Agent at 833-601-2676 to obtain the necessary information to instruct your financial institution to wire your investment. A representative will assist you in obtaining an account application, which must be completed, signed and faxed (or mailed) to the Transfer Agent before payment by wire will be accepted.

The Fund requires advance notification of all wire purchases in order to ensure that the wire is received in proper form and that your account is subsequently credited in a timely fashion. Failure to notify the Transfer Agent prior to the transmittal of the bank wire may result in a delay in purchasing shares of the Fund. An order, following proper advance notification to the Transfer Agent, is considered received when the Fund’s custodian, receives payment by wire. If your account application was faxed to the Transfer Agent, you must also mail the completed account application to the Transfer Agent on the same day the wire payment is made. See “Opening an Account – By Mail” above. Your financial institution may charge a fee for wiring funds. Shares will be issued at the NAV next computed after receipt of your wire in proper form.

Through Your Broker or Financial Institution. Shares of the Fund may be purchased through certain brokerage firms and financial institutions that are authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive purchase orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, receives the order in proper form. Certain financial intermediaries may charge fees for purchase and/or redemption transactions by customers, depending on the nature and terms of the financial intermediaries' particular platform. Additionally, investors purchasing shares from a broker or other financial intermediary may be required to pay a commission in connection with such purchase. These organizations may charge you transaction fees on purchases of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who purchase shares directly through the Fund. These organizations may be the shareholders of record of your shares. Such investors should consult with their financial intermediary regarding any commissions and other fees and expenses of the shares being purchased. The Fund is not responsible for ensuring that the organizations carry out their obligations to their customers. Shareholders investing in this manner should look to the organization through which they invest for specific instructions on how to purchase and redeem shares.

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans or IRAs. Please call the Fund at 833-601-2676 for the most current listing and appropriate disclosure documentation on how to open a retirement account. The Fund offers a variety of retirement accounts for eligible individuals and small businesses. If you invest through a retirement plan or IRA, you may be subject to special distribution requirements for a retirement account, such as required distributions or mandatory U.S. Federal income tax withholding. You may be charged a \$25 annual account maintenance fee for each retirement account.

Subsequent Investments

For Institutional Class shares, the minimum additional investment amount is \$1,000 for all regular accounts. Additional purchases must be submitted in proper form as described below. Additional purchases may be made:

- By sending a check, made payable to the Fund, at the address listed above. Be sure to note your account number on the memo line of your check. The shareholder will be responsible for any fees incurred or losses suffered by the Fund as a result of any check returned for insufficient funds.
- By wire to the Fund account as described under "Opening an Account – By Wire." Shareholders are required to call the Transfer Agent at 833-601-2676 before wiring funds.
- Through your brokerage firm or other financial institution.

- **Automated Clearing House (ACH) Purchase.** Shareholders may purchase additional shares via Automated Clearing House (“ACH”). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions. You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time. Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Automatic Investment Plan and Direct Deposit Plans

You may make automatic monthly investments in the Fund from your account held at a bank, savings and loan or other depository institution. The minimum investments under the automatic investment plan must be at least \$100 under the plan. The Transfer Agent currently pays the costs of this service, but reserves the right, upon 30 days written notice, to make reasonable charges. Your depository institution may impose its own charge for making transfers from your account. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund reserves the right to waive any investment minimum requirement.

Your employer may offer a direct deposit plan which will allow you to have all or a portion of your paycheck transferred automatically to purchase shares of the Fund. Social Security recipients may have all or a portion of their social security check transferred automatically to purchase shares of the Fund. Please call 833-601-2676 for more information about the automatic investment plan and direct deposit plans.

Purchases in Kind

The Fund may accept securities in lieu of cash in payment for the purchase of shares of the Fund. The acceptance of such securities is at the sole discretion of the Adviser based upon the suitability of the securities as an investment for the Fund, the marketability of such securities, and other factors which the Adviser may deem appropriate. If accepted, the securities will be valued using the same criteria and methods utilized for valuing securities to compute the Fund’s NAV.

Customer Identification and Verification

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on government lists of known or suspected terrorists and terrorist organizations. As requested on the Application, you should supply the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport, or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities. *Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above. Mailing addresses containing a P.O. Box will not be accepted.*

After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund also may close your account or take other appropriate action if they are unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed. In that case, your redemption proceeds may be worth more or less than your original investment. The Fund will not be responsible for any loss incurred due to the Fund's inability to verify your identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Frequent Trading Policies

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders and discourages market timing. Market timing is an investment strategy using frequent purchases, redemptions and/or exchanges in an attempt to profit from short-term market movements. Market timing may disrupt portfolio management strategies and hurt Fund performance. Such practices may dilute the value of Fund shares, interfere with the efficient management of the Fund's investments, and increase brokerage and administrative costs. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information, to the extent known to the broker, to the Fund upon request. The Fund does not accommodate frequent purchases and redemptions of Fund shares by Fund shareholders.

The Fund may reject purchase orders, revoke an investor's right to purchase additional shares, or temporarily or permanently revoke privileges (such as exchange privileges, if applicable) if there is reason to believe that a shareholder is engaging in excessive trading. Generally, trading or exchange activity is considered excessive if an exchange or redemption in excess of a predetermined dollar amount occurs within 7 calendar days of purchase.

The Fund may accept redemptions and exchanges in excess of the above guidelines if they believe that granting such exceptions is in the best interest of the Fund and the redemption is not part of a market timing strategy.

It is a violation of policy for an officer or Trustee of the Fund to knowingly facilitate a purchase or redemption where the shareholder executing the transaction is engaged in any activity which violates the terms of the Fund's Prospectus or Statement of Additional Information, and/or is considered not to be in the best interests of the Fund or its other shareholders.

The Fund will apply its policies and procedures uniformly to all Fund shareholders. Although the Fund intends to deter market timing, there is no assurance that it will be able to identify and eliminate all market timers. For example, certain accounts called "omnibus accounts" include multiple shareholders. Omnibus accounts typically provide the Fund with a net purchase or redemption request on any given day where purchasers of the Fund's shares and redeemers of the Fund's shares are netted against one another and the identities of individual purchasers and redeemers whose orders are aggregated are not known by the Fund. The netting effect often makes it more difficult for the Fund to detect market timing, and there can be no assurance that the Fund will be able to do so. Therefore, with respect to Omnibus accounts, the Fund relies on selling group members to enforce the Fund's market timing policies and procedures. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect

market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges, and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. However, the Fund will ensure that financial intermediaries maintaining omnibus accounts on behalf of the Fund enter into an agreement with the Fund to provide shareholder transaction information, to the extent known to the financial intermediary, to the Fund upon request.

The Fund reserves the right to modify its policies and procedures at any time without prior notice as it deems in its sole discretion to be in the best interests of its shareholders, or to comply with state or Federal legal requirements.

HOW TO REDEEM SHARES

Shares of the Fund may be redeemed on any day on which the Fund computes its NAV. Shares are redeemed at their NAV next determined after the Transfer Agent receives your redemption request in proper form as described below. Redemption requests may be made by mail or by telephone.

By Mail. You may redeem all or any portion of your shares by mailing a written request to:

Regular Mail

Connors Hedged Equity Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 46707
Cincinnati, OH 45246-0707

Overnight Mail

Connors Hedged Equity Fund
c/o Ultimus Fund Solutions, LLC
225 Pictoria Drive, Suite 450
Cincinnati, OH 45246

Written requests must state the shareholder's name, the account number and the shares or dollar amount to be redeemed and be signed exactly as the shares are registered with the Fund. Written requests will not be processed unless they include all of this information.

Signature Guarantees. If the shares to be redeemed have a value of greater than \$50,000, or if the payment of the proceeds of a redemption of any amount is to be sent to a person other than the shareholder of record or to an address other than that on record with the Fund, or if any redemption is transmitted to a bank other than the bank of record, or if your address was changed within 30 days of your redemption request, then you must have all signatures on written redemption requests guaranteed. The Transfer Agent will accept signatures guaranteed by a domestic bank or trust company, broker, dealer, clearing agency, savings association or other financial institution which participates in the Securities Transfer Agents Medallion Program (“STAMP”) sponsored by the Securities Transfer Association. Signature guarantees from financial institutions that do not participate in STAMP will not be accepted. A notary public cannot provide a signature guarantee. The Transfer Agent has adopted standards for accepting signature guarantees from the above institutions. The Fund and the Transfer Agent reserve the right to amend these standards at any time without notice.

Redemption requests by corporate and fiduciary shareholders must be accompanied by appropriate documentation establishing the authority of the person seeking to act on behalf of the account. Forms of resolutions and other documentation to assist in compliance with the Transfer Agent’s procedures may be obtained by calling the Transfer Agent.

By Telephone. Unless you specifically decline the telephone redemption privilege on your account application, you may also redeem shares having a value of \$50,000 or less by telephone by calling the Transfer Agent at 833-601-2676. This threshold applies per account and not in the aggregate. If redeeming from an IRA account, you will be asked about tax withholding.

Telephone redemptions may be requested only if the proceeds are to be sent to the shareholder of record and mailed to the address on record with the Fund. Account designations may be changed by sending the Transfer Agent a written request with all signatures guaranteed as described above. Upon request, redemption proceeds of \$100 or more may be transferred electronically from an account you maintain with a financial institution by an Automated Clearing House (“ACH”) transaction, and proceeds of \$1,000 or more may be transferred by wire, in either case to the account stated on the account application. Shareholders may be charged a fee of \$15 by the Fund’s custodian for outgoing wires.

The Transfer Agent requires personal identification before accepting any redemption request by telephone, and telephone redemption instructions may be recorded. If reasonable procedures are followed by the Transfer Agent, neither the Transfer Agent nor the Fund will be liable for losses due to unauthorized or fraudulent telephone instructions. “Reasonable procedures” include, but are not limited to, the Transfer Agent confirming that the account is eligible for telephone transactions, requesting some form of personal identification (e.g., social security number, date of birth, etc.) from you prior to acting on telephonic instructions, and getting a verbal confirmation from you on a recorded line at the time of the transaction. During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its transfer agent will be held liable if you are unable to place your trade due to high call volume. If such a case should occur, redemption by mail should be considered.

Through Your Broker or Financial Institution. You may also redeem your shares through a brokerage firm or financial institution that has been authorized to accept orders on behalf of the Fund at the NAV next determined after your order is received by such organization in proper form. These organizations are authorized to designate other intermediaries to receive redemption orders on the Fund’s behalf. The Fund calculates its NAV as of the close of regular trading on the NYSE (generally 4:00 p.m. Eastern time). These organizations may be authorized to designate other intermediaries to act in this capacity. Such an organization may charge you transaction fees on redemptions of Fund shares and may impose other charges or restrictions or account options that differ from those applicable to shareholders who redeem shares directly through the Transfer Agent.

Retirement Plans: If you own shares of the Fund through an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold U.S. federal income tax. Unless you elect in your redemption request that you do not want to have U.S. federal income tax withheld, the redemption will be subject to withholding. Certain transactions within a Retirement account, including shares redeemed to return an excess contribution, retirement plan or IRA transfers or hardship withdrawals, IRA re-characterizations and conversions, and account closures, may be subject to a \$25 fee.

Receiving Payment

The length of time the Fund typically expects to pay redemption proceeds is the same regardless of whether the payment is made by check, wire or Automated Clearing House (“ACH”). The Fund typically expects to pay redemption proceeds for shares redeemed within the following days after receipt by the Transfer Agent of a redemption request in proper form:

- For payment by check, the Fund typically expects to mail the check within one (1) to three (3) business days;
- For payment by wire or ACH, the Fund typically expects to process the payment within one (1) to three (3) business days.

Payment of redemption proceeds may take longer than the time the Fund typically expects and may take up to 7 calendar days as permitted under the 1940 Act. Under unusual circumstances as permitted by the SEC, the Fund may suspend the right of redemption or delay payment of redemption proceeds for more than 7 calendar days. When shares are purchased by check or through ACH, the proceeds from the redemption of those shares will not be paid until the purchase check or ACH transfer has been converted to federal funds, which could take up to 15 calendar days. You may request overnight delivery of redemption proceeds. Checks requested to be sent via overnight delivery are subject to a \$35 charge.

Minimum Account Balance

Due to the high cost of maintaining shareholder accounts, the Fund may involuntarily redeem shares in an account, and pay the proceeds to the shareholder, if the shareholder's activity causes the account balance to fall below a share class's minimum initial investment amount. Such automatic redemptions may cause a taxable event for the shareholder. An automatic redemption does not apply, however, if the balance falls below the minimum initial investment amount solely because of a decline in the Fund's NAV. Before shares are redeemed to close an account, the shareholder is notified in writing and allowed 30 calendar days to purchase additional shares to meet the minimum account balance requirement.

Systematic Withdrawal Plan

If the shares in your account have a value of at least \$5,000, you (or another person you have designated) may receive monthly or quarterly payments in a specified amount of not less than \$100 each. There is currently no charge for this service, but the Transfer Agent reserves the right, upon 30 calendar days written notice, to make reasonable charges. Telephone the Transfer Agent toll-free at 833-601-2676 for additional information.

Other Redemption Information

Generally, all redemptions will be paid in cash. The Fund typically expects to satisfy redemption requests by using holdings of cash or cash equivalents or selling portfolio assets. On a less regular basis and if the Adviser believes it is in the best interest of the Fund and its shareholders not to sell portfolio assets, the Fund may satisfy redemption requests by using short-term borrowing from the Fund's custodian. These methods normally will be used during both regular and stressed market conditions. In addition to paying redemption proceeds in cash, the Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a "redemption in kind." A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind proceeds will typically be made by delivering a pro-rata amount of the Fund's holdings to the redeeming shareholder within 7 days after the Fund's receipt of the redemption order in proper form. If the Fund redeems your shares in kind, you will bear the market risks associated with maintaining or selling the securities that are transferred as redemption proceeds. In addition, when you sell these securities, you will pay taxes and brokerage charges, if any, associated with selling the securities.

Other Information

The Agreement and Declaration of Trust imposes certain conditions on derivative actions that are not otherwise required by law, including that the complaining shareholder must first submit a written demand to the Board, which will be reviewed by the Board within a specified time period, and, in the case of any claim not arising under the federal securities laws, a requirement that the holders of at least a majority of the total outstanding shares of the applicable fund or class join in bringing the action and the right of the Board to determine if a suit is not in best interest of the Fund and to bar a shareholder from proceeding with such a derivative action. Although these conditions are intended to permit legitimate inquiries and claims while avoiding the time, expense, distraction, and other harm that can be caused to a fund or its shareholders as a result of spurious shareholder demands and derivative actions, they may make it more difficult or costly for Fund shareholders to bring derivative actions on behalf of the Fund.

DIVIDENDS, DISTRIBUTIONS, AND U.S. FEDERAL INCOME TAXES

The following is a general summary for U.S. taxpayers (other than U.S. investors who hold their shares in an IRA or other tax-deferred arrangement) of the U.S. federal income tax consequences of investing in the Fund. It is based on current tax laws and regulations that are in effect on the date of this Prospectus. Such laws and regulations may be changed by legislative, judicial, or administrative action, possibly with retroactive effect. Shareholders should rely on their own tax advisors for advice about the particular U.S. federal, state, and local tax consequences of investing in the Fund.

The Fund has elected and intends to qualify each year for treatment as a regulated investment company for U.S. federal income taxes under Subchapter M of the Internal Revenue Code of 1986, as amended (“RIC”). If it meets certain minimum distribution requirements, a RIC is not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, the Fund’s failure to qualify as a RIC or to meet minimum distribution requirements would result (if certain relief provisions were not available) in fund-level taxation and, consequently, a reduction in income available for distribution to shareholders. In addition, the Fund may be subject to a 4% excise tax if it fails to make sufficient distributions.

The Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. Income dividends and net capital gain distributions, if any, are normally declared and paid annually by the Fund in December. Your distributions of dividends and capital gains will be automatically reinvested in additional shares of the Fund unless you elect to receive them in cash. The Fund’s distributions of income and capital gains, whether received in cash or reinvested in additional shares, will be subject to U.S. federal income tax. Income distributions, including distributions of net short-term capital gains but excluding distributions of qualified dividend income, are generally taxable at ordinary income tax rates, although certain income dividends may be taxed to non-corporate shareholders at long-term capital gains rates. In the case of corporations that hold shares of the Fund, certain income from the Fund may qualify for a 50% dividends-received deduction. Distributions that are reported by the Fund as long-term capital gains and as qualified dividend income are generally taxable at the rates applicable to long-term capital gains currently set at a maximum tax rate for individuals at 20% (lower rates apply to individuals in lower tax brackets). You will be notified by February 15th of each year about the U.S. federal income tax status of distributions made by the Fund during the prior year. Depending on your residence for tax purposes, distributions also may be subject to state and local taxes.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as “buying a dividend.” We recommend that you consult with your tax advisor to determine the U.S. federal, state, and local tax consequences of “buying a dividend”.

When you redeem Fund shares, you will generally realize a capital gain or loss if you hold the shares as capital assets. Any gain realized on a redemption of Fund shares will be subject to U.S. federal income tax. A sale may result in a capital gain or loss to you. The gain or loss on the sale of Fund shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less, or a long-term capital gain or loss if you held the shares for longer. Any loss realized upon a taxable disposition of Fund shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed received) by you with respect to the Fund shares. All or a portion of any loss realized upon a taxable disposition of Fund shares will be disallowed if you purchase other substantially identical shares within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly, \$125,000 if married and filing separately) are subject to a 3.8% tax on their “net investment income,” including interest, dividends, and capital gains (including capital gains realized on the sale or exchange of shares of the Fund).

The Fund (or its administrative agent) must report to the IRS and furnish to Fund shareholders cost basis information for Fund shares. In addition to reporting the gross proceeds from the sale of Fund shares, the Fund (or its administrative agent) is also required to report the cost basis information for such shares and indicate whether these shares have a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit its shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Fund will use the average cost basis method as the default cost basis method. The cost basis method elected by Fund shareholders (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about cost basis reporting. Shareholders also should carefully review the cost basis information provided to them and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their U.S. federal income tax returns.

U.S. federal income tax law requires the Fund to withhold taxes on distributions paid to shareholders who fail to provide a social security number or taxpayer identification number or fail to certify that such number is correct.

Because each shareholder’s tax situation is different, you should consult your tax advisor about the tax implications of an investment in the Fund.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total return in the table represents the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements and related notes, are included in the Fund's November 30, 2024 annual report, which is available upon request and is incorporated by reference in the SAI. The information for the period ended November 30, 2022 has been derived from the financial statements audited by the Fund's prior auditor.

Connors Hedged Equity Fund - Institutional Class

(For a share outstanding during the period)

	For the Years Ended November 30,		For the Period Ended November 30,
	2024	2023	2022 ^(a)
Selected Per Share Data:

This Prospectus, the SAI, the most recent shareholder reports, and the Fund's financial statements are also available without charge on the Fund's website at www.connorsinvestor.com/mutual-fund or upon written request to:

Connors Hedged Equity Fund

c/o Ultimus Fund Solutions, LLC

P.O. Box 46707

Cincinnati, OH 45246-0707

Only one copy of a Prospectus or an annual or semiannual report will be sent to each household address. This process, known as "Householding," is used for most required shareholder mailings. (It does not apply to confirmations of transactions and account statements, however). You may, of course, request an additional copy of a Prospectus or an Annual or Semi-Annual Report at any time by calling or writing the Fund or by visiting the Fund's website at www.connorsinvestor.com/mutual-funds. You may also request that Householding be eliminated from all your required mailings.

Reports and other information about the Fund are available on the EDGAR Database on the U.S. Securities and Exchange Commission's internet site at <http://www.sec.gov>. Copies of information on the U.S. Securities and Exchange Commission's internet site may be obtained, upon payment of a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov.
