WFP OPPORTUNITY FUND

Higher Risk-Adjusted Returns

As of March 31, 2021

FUND DESCRIPTION

The WFP Opportunity Fund, LLC (the Fund) seeks to provide attractive risk-adjusted returns to its investors as compared to other short term fixed income investments. The Fund invests in debt and equity investments secured by real estate nationwide. Such investments will include, without limitation, direct and indirect equity investments, joint ventures, deeds of trust and mortgages, participating loans and other real estate related investments. The Fund generates revenues primarily through the return on its equity investments and on the interest paid on the mortgage loans and trust deeds in its portfolio by the underlying property owners. The Fund is targeting higher risk-adjusted returns as compared to other fixed income investments. The total return for the Fund will primarily be paid through the dividend.

Wilshire Finance Partners, as the Fund Manager, believes the legal characteristics of the debt and equity investments of the Fund, and the value of the real property in which the Fund invests or that is collateral for the debt investments of the Fund, coupled with the fundamental strategies the manager employs, will enable the Fund to earn an attractive risk-adjusted return on the investment while mitigating certain risks associated with real estate investment. Investments in the Fund are being offered pursuant to a Private Placement Memorandum (“PPM”) to accredited investors in accordance with Regulation D, Rule 506(c). Please consult the PPM for more information on the Fund’s investment process.

VALUE OF OPPORTUNISTIC INCOME STRATEGIES

Higher Risk-Adjusted Returns

Trust deeds and mortgages create a security interest in real estate for the repayment of loans. Like mortgages, first trust deeds enjoy a priority position over equity and other junior liens and encumbrances on the real property collateral. Participating loans and mezzanine financing may be secured directly by the real estate or indirectly through pledges of ownership interests. Equity, joint ventures, and other real estate based investments may be unsecured but have priority over sponsorship or other equity interests in the property. Participating loans, mezzanine financing, and preferred equity have priority over common equity but still may participate in the gains in the underlying real estate.
