

## **WFP Income Fund Announces a 6.03% Net Annualized Return for January 2020**

February 4, 2020, Newport Beach, California - The WFP Income Fund, managed by Wilshire Finance Partners, paid investors a 6.03% net annualized non-compounded return in January 2020, or 0.51% for the month on a standalone basis. The net annualized compounded return for the fund since its inception on September 23, 2013 through January 31, 2020 was 8.91%.

The WFP Income Fund (the “WFP Income Fund”) is a short term, fixed income alternative investment that seeks to protect the investor’s principal while also providing attractive risk-adjusted returns. The WFP Income Fund is the sole holder of all of the common shares of WFP Income Fund REIT, LLC, a Delaware limited liability company (the “REIT” and collectively with the WFP Income Fund, the “Fund”). The WFP Income Fund, directly and indirectly through the REIT, will invest in business purpose loans secured by first trust deeds and mortgages within the United States. The REIT was formed as a subsidiary of the WFP Income Fund in January 2019 to enable noncorporate investors to obtain up to a 20% tax deduction on REIT dividends received through the Fund under the Tax Cuts and Jobs Act of 2017.

The return obtained by the Fund was on an unlevered basis and was primarily the result of interest income received on the first trust deeds and mortgages in the Fund’s portfolio.

### **Performance by the Numbers**

As of January 31, 2020:

Net Annualized Non-Compounded Return:	6.03%
Monthly Return (stand-alone basis):	0.51%
	(or 6.03% annualized)
Net Annualized Compounded Return (since inception):	8.91%
Weighted Average Loan-to-Value:	58.41%
Weighted Average Maturity:	25 months
Average Loan Size:	\$1,674,909
Non-Performing Loans:	0
Repayment Percentage (January):	0%
Liquidity / Cash Position:	22.98%
	(REIT liquidity percentage)

At month end, the Fund's portfolio consisted of loans secured in first lien position against residential, office, retail, light industrial, warehouse and senior assisted living properties, predominantly in the State of California. Other states represented in the Fund's loan portfolio at month end included Alabama, Colorado, Florida, Illinois, Maryland, Michigan, North Carolina, North Dakota, Texas, Washington and Wisconsin.

At January 31, 2020 management identified two loans it has classified as substandard. A substandard loan is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Loans that are also classified as substandard must have a well-defined weakness, or weaknesses, that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the lender will sustain some loss if the deficiencies are not corrected.

Since the Income Fund's inception in September 2013 through January 31, 2020, the net asset value (NAV) of the Income Fund remained stable and demonstrated no correlation to the stock markets or bond markets. Further, the NAV was not sensitive to changes in interest rates.

"Our plan and approach for 2020 anticipates that the competition for bridge loans will remain high," said Don Pelgrim, CEO of Wilshire Finance Partners. "As a result, the Fund will continue to adjust to compete in that market dynamic while maintaining its underwriting standards and risk tolerances. Those adjustments include continued refinements to our processes and systems and developing lending sub-specialties. Therefore, while our primary focus of generating stable income while providing principal protection remains unchanged, we are proactively planning and implementing changes to adapt and adjust in a competitive market."
