THE WORKFORCE CONSULTING GROUP

The Workforce Consulting Group is committed to ensuring you remain fully functional post Adobe Flash.

The Workforce Consulting Group has partnered with **Harman Connected Services** to offer a stop-gap solution for customers who are unable to upgrade before the January 2021 deadline. If you are a Workforce Central On-Premise customer who has not yet updated to WFC v8.1.7 or higher, you are facing a significant issue with the impending retirement of Adobe Flash.

The Harman Packaged Browser is a unique browser that allows users to access Flash-based content after the Adobe solution is retired. We have partnered the Harman Browser with our own Services Support to help customers transition to a Flash free platform and move forward without interruption.

Our Package includes:

- **1 Year subscription** to Harman Browser.
 - Customized Installer
- **40 hours** of Email Support with Harman
- **5 Hours** of Implementation Support from The WFC Group.
- **10 hours** of support from The WFC Group.

ABOUT US

The Workforce Consulting Group has been a Kronos/UKG partner for nearly 10 years. We provide Implementation, Support, Training and Adoption Services for clients across all industries and pride ourselves on customizing our services to meet each customer's specific needs through our Listen, Adapt, Deliver methodology.

LISTEN. ADAPT. DELIVER.
