OF OUR FIELD TEAM

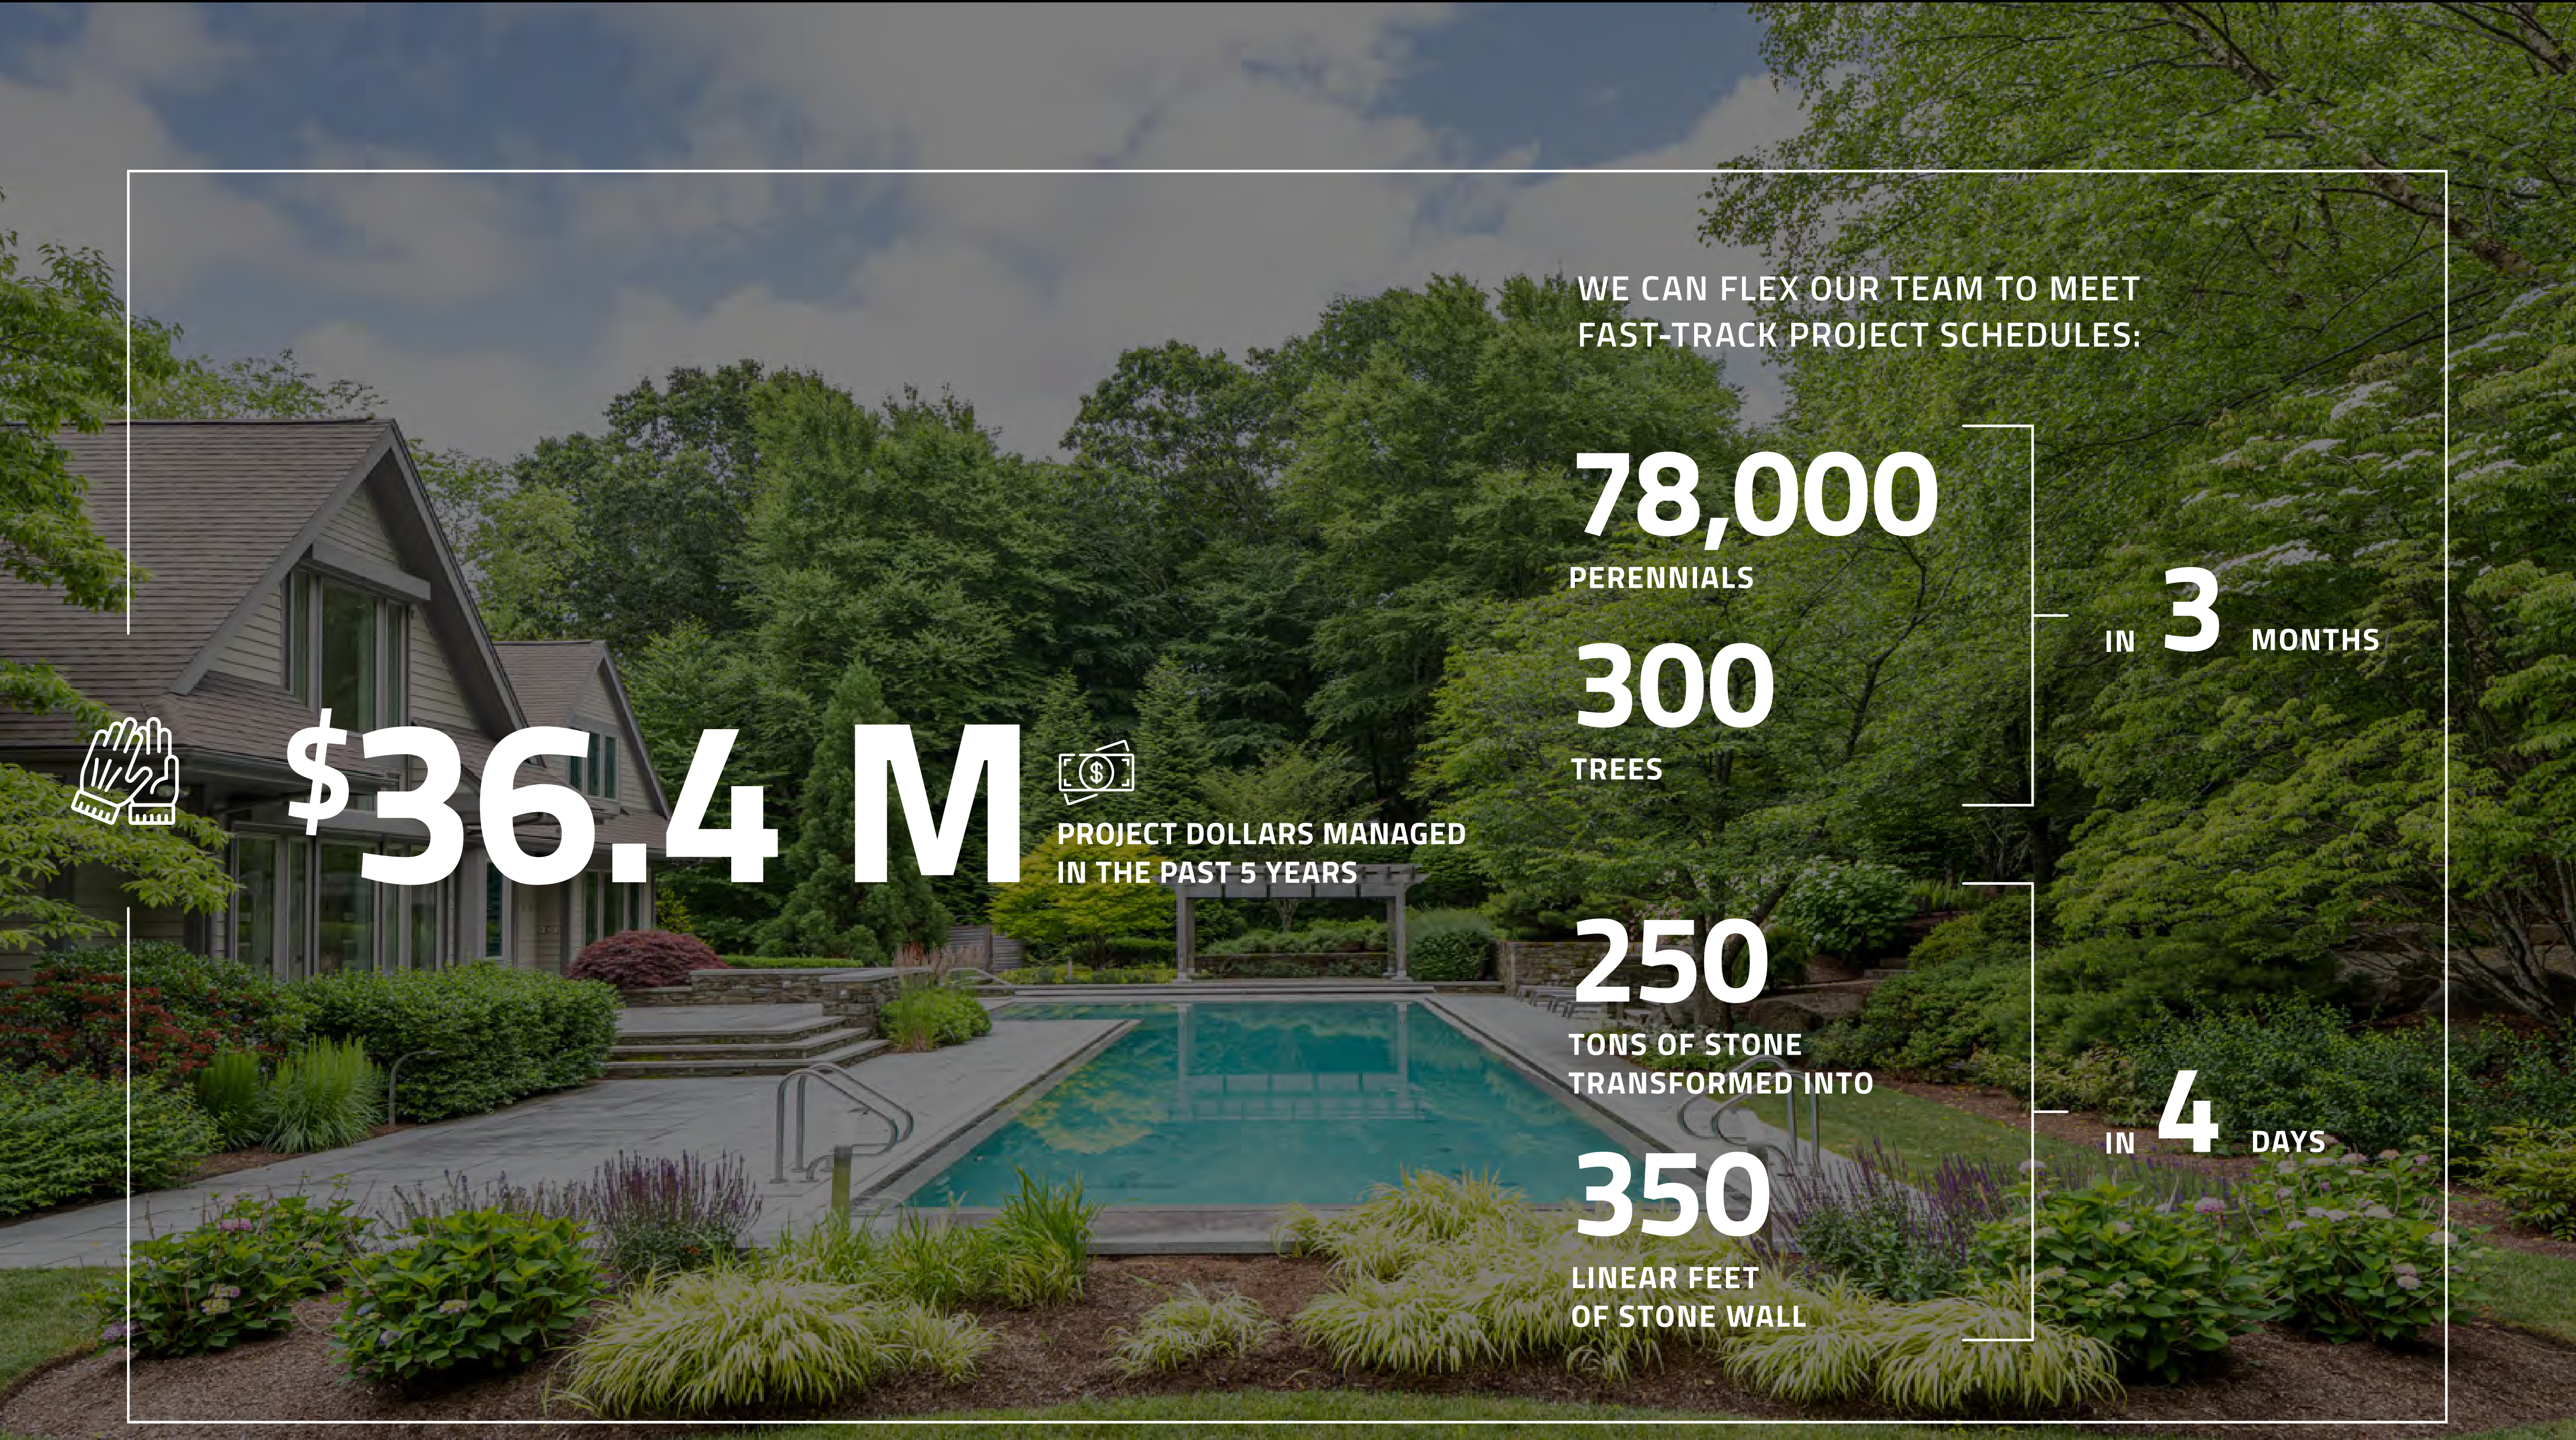

250+  FERRY TRIPS TRAVELED BETWEEN THE MAINLAND  
AND NEW ENGLAND ISLANDS IN THE PAST 5 YEARS

## One Hand to Shake

Recognized as a leading landscape contractor in New England, Landscape Creations has been crafting legacy landscapes and masonry for over 20 years. From preconstruction to execution, we manage every aspect of outdoor project scope under one experienced team. Our typical projects are complex, usually supporting a landscape architect and involving multiple parties and stakeholders. We often manage seven-figure projects on behalf of our custom-building partners, and are known for our ability to flex our team to respond to demanding schedules. Our integrated team approach pairs the industry's finest craftsmen with expert project managers and administrators to ensure timely execution and decision making, and an exceptional experience for all involved.
