

HIGH VOLUME DATA ANALYTICS & INTELLIGENCE—IN REAL TIME

Intellego XT Monitoring Center

Intellego XT Monitoring Center (MC) is a comprehensive communications and data analysis tool for enterprise security, intelligence and law enforcement agencies. It can ingest and reconstruct large volumes of data, import data from external sources such as PCAP files, perform highly flexible and intelligent custom queries on communications data, and provide investigative results.

INTELLEGO XT MONITORING CENTER—INGEST AND RECONSTRUCTION

Intellego XT MC reports a subject of interest's (SOI's) communications in real time, documents them exactly as they happened and provides a visual

ACTIVE IN **35** COUNTRIES → COVERING MORE THAN **1 BN** SUBSCRIBERS

6 OF THE WORLD'S LARGEST INTELLIGENCE AGENCIES USE SS8

70% MARKET SHARE US&UK

We are the top provider in the US and UK for Mediation and Monitoring platforms

150 VENDOR INTERFACES

Proven network equipment interoperability with over 150 vendor interfaces to expedite deployment.

EXTRACT, COLLECT & DISTRIBUTE DATA

Real-time monitoring center

Advanced data analytics incorporating voice, video, device dumps, metadata and more

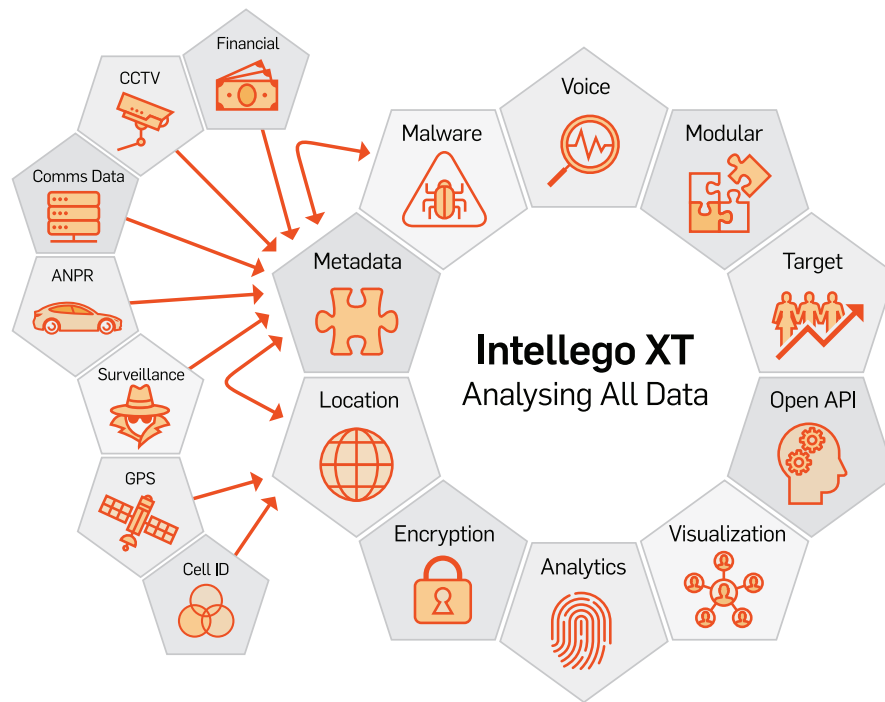

Greater intelligence gathering with more targets, events, and location data

Virtualized, scalable and cost-effective architecture

ETSI and 3GPP compliant

and audio reconstruction for voice calls, data communications, e-mails, etc. It also instantly notifies an analyst if an SOI has a new communication or location change.

Intellego XT's customizable cutting-edge forensics interface provides reporting dashboards and graphically shows multi-dimensional relationships, geolocation maps and event timelines. Additionally, it displays an image gallery, so analysts can quickly find relevant images files and all intercepted data is fully indexed for rapid retrieval.

ADVANCED QUERIES AND FLEXIBLE REPORTING

Providing a customizable cutting-edge forensics interface, Intellego XT MC offers intuitive reporting dashboards and tables. Users can automate searches to run periodically or upon receipt of a communication event relevant to a particular case, increasing efficiency and accuracy. Intellego XT then graphically displays multi-dimensional relationships, geolocation maps, and event timelines to pinpoint an SOI's activity.

Additionally, Intellego XT includes flexible reporting to support legal compliance requirements, as well as workload management. It delivers activity logs that provide an unalterable record of each analyst's or investigator's activity on an intercept or case.

WHY CHOOSE SS8 NETWORKS?

- A. It is our mission to provide the most advanced Lawful Intelligence solutions today, to assure a safer tomorrow.
- B. Our solutions are designed to exceed our customers' needs and help them successfully navigate the changing world of data.
- C. We expedite investigative results by combining and analyzing multiple data sources simultaneously, providing new levels of visibility.
- D. We are trusted by the world's leading Law Enforcement Agencies (LEAs) and CSPs because our powerful compliant solutions deliver results.
