

	Title:	Certificate of Conformance / Proposition 65	Number:	EHS-030
			Effective Date:	2014 JUL 15
	Approved By:	Christopher O'Leary	Revised Date:	2018 JUL 16
	Signature:	<i>Signature on File</i>	Revision Edition:	C

POLICY DECLARATION: Kenson Plastics Inc. is dedicated to ensuring articles produced and manufacturing operations comply with applicable environmental legislation and regulations, to responsibly manage the use of hazardous materials, and to promote recycling / reuse. As a result of this dedication, Kenson Plastics Inc. monitors a number of regulations to include Proposition 65 for any new chemicals and provides updated information / certification to those customers who require such documentation.

Proposition 65 is the Safe Drinking Water and Toxic Enforcement Act of 1986 and requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 requires California to publish a list of these chemicals and update this list at least annually. It can be viewed at: <https://oehha.ca.gov/proposition-65>.

Please contact the Kenson Quality / Safety Manager for product specific Proposition 65 certificate of conformance(s) as needed.
