

KENSON PLASTICS' QUALITY POLICY

KENSON PLASTICS INC. IS DEDICATED TO BE THE MARKET LEADER OF PRECISION PRESSURE-FORMED PLASTICS AND ENGINEERED PLASTIC COMPONENTS BY PROVIDING SUPERIOR QUALITY PRODUCTS THAT EXCEED OUR CUSTOMER'S NEEDS AND EXPECTATIONS.

To achieve this goal, Kenson Plastics Inc. has established a documented quality management system and is committed to a focus of continual improvement in all areas of our business environment while providing our customers with defect free products on time, every time and complying with all applicable industry, statutory and regulatory requirements.

Kenson Plastics Inc. has established quality objectives and their associated annual key performance indicators to measure customer satisfaction; on time performance; product quality and product safety. With the collective aim of enhancing stakeholder and customer satisfaction Kenson Plastics Inc. utilizes innovative and collaborative implementation of customer designs, a thorough understanding of customers' finish and functionality requirements, and established product realization processes, product quality plans and their associated documents and resources.

In support of this policy, Kenson Plastics Inc. is committed to continually improving the effectiveness and efficiency of our processes and to ensure an adequate framework for the establishment and review of the Quality Objectives.
