Pena4.com

As a leading innovator of H.I.M. and revenue cycle management solutions, Pena4 leverages clinical data and documentation to support and expedite healthcare systems' billing and payment processes. We are a team of outsourced and offshore professionals dedicated to delivering the data outcomes our partners need to make informed decisions and improve productivity, efficiency, and compliance throughout their operations.

Pena4's Consulting Services Division consists of skilled and qualified H.I.M. professionals with experience across multiple healthcare environments to manage countless, continually changing charge items and regulations that can negatively impact:

- ☒ Acute care facilities
- ☒ Ambulatory clinics
- ☒ Specialty hospitals

Our H.I.M. executive team has an average of 20+ years of hands-on experience with a specific focus on operations and interim management, revenue cycle, coding, and auditing. We've been providing support to healthcare organizations throughout the United States and Puerto Rico for decades, with recent expansion into Canada.

Experienced H.I.M. Consultants

Staying on top of these shifts in the H.I.M. landscape can be overwhelming. Pena4's consulting professionals offer a fresh, informed, proactive approach to health information management and revenue cycle management. Our consultants serve as both an extension of your existing team and as a catalyst to help healthcare providers achieve key performance indicators and organization-wide goals. As a trusted revenue cycle advisor, Pena4 Consulting provides input and direction across essential mid-cycle revenue components.

- ☒ Clinical Documentation Improvement (CDI)

Pena4: Our Consulting Services

Some of our health information management consulting services include:

Provide Analytics

Pena4 creates and delivers customized dashboards and analytics to help our partners recognize potential issues before they cause significant disruption.

Validation Review

Our consulting team performs a full validation of all diagnosis code assignments, procedure codes, sequencing, and code specificity to ensure compliance with the latest coding rules, regulations, and guidelines.

Opportunity Improvement Report

Define all documentation improvement and coder education opportunities, including a comprehensive report of all findings and recommendations.

Customized Education

We offer education and training options to identify, address, and resolve specific medical coding knowledge gaps and clinical documentation insufficiencies discovered during the project.

Job Titles

Pena4 H.I.M. consultants can fulfill a wide range of job roles, including H.I.M. Director/Manager, Medical Manager, Coding Director/Manager, Privacy/Compliance Officer

“We were very fortunate in selecting Pena4 ... a perfect fit for our very complex coding environment. The excellent coding your organization has performed has had a positive impact of \$2 million.”
