IBI Research Review

This monthly newsletter pulls together the latest peer-reviewed research on workforce health and productivity.

November's edition discussed mental health programs, Alzheimer's disease, and increasing influenza vaccinations in the workplace.

Assess benefits program performance and understand the health status and productivity level of the workforce

Disability and Leave Benchmarking

Access the nation's largest disability/leave database of over 9M claims from 100,000 employer policies. Customize reports to compare outcomes with industry peers.

Disability Diagnosis Analyzer

Illustrate the disability burden of illnesses or conditions, providing the average incidence rate, costs, and duration of leave.

Full Cost Estimator

Model the costs of poor health in the workplace, including absence, disability, presenteeism and opportunity costs all in a single online tool.

Medication Adherence Savings Calculator

Recognize how adherence with medications reduces health care and lost productivity costs

Interactive Map: COVID-19 Employer Paid Leave Costs

View modeled disability and leave costs associated with confirmed COVID-19 cases by state or metro area. The data in the map is updated weekly.

Read the highlights below to see what is new at IBI and what is upcoming.
