## GET YOUR VACCINE SITE PEOPLE READY

### ORGANIZED PATIENT FLOW KEEPS EVERYONE SAFE

Our portable barriers are an ideal solution for keeping patients organized and physically distant as they enter and exit your vaccination site. Banner Stakes is here to help prepare your site for safe and efficient distribution.

### Our *Cart Packages & Stanchion Sets* are a quick and easy way to create organized lines and promote physical distancing!

## Keep Your Barriers Clean

Protect your patients and staff by regularly cleaning and sanitizing your barriers. Banner Stakes recommends the following methods to clean our products:

### Chlorine Bleach

Application Method: Apply to cloth towel and wipe or spray directly on and let dry.

### Isopropyl Alcohol

Application Method: Apply to cloth towel and wipe or spray directly on and let dry.

### Hydrogen peroxide (3%)

Application Method: Apply to cloth towel and wipe or spray directly on and let dry.

### Hospital Grade Disinfectant

Application Method: Spray and wipe or spray directly on and let dry.
