

The ADI Stages

TASK

Introduce a phenomenon to figure out and the task to complete.

1

2

PLAN

Students create, share, and revise a plan for collecting and analyzing data.

3

4

SHARE

Students create, share, critique, and revise evidence-based arguments.

5

6

REPORT

Students write, share, critique, and revise reports about what they figured

7

IDEAS

Highlight some ideas that students can use during the investigation.

DO

Students collect the data they need and then make sense of it.

REFLECT

Students discuss ways to use core ideas and practices in the future.
