## Sizing

*please complete each step below for proper sizing:*

1. Measure the distance from the MP joint center to the fingertip on the intact hand (where applicable) and record in the table to the right.
2. Consider socket build out and any residual limb distal to the MP joint when choosing a size. In general, round down to the nearest size.
3. Choose a size from the table below for each desired prosthetic thumb.
4. Choose a finger surface finish option and a mounting kit from the table below (59 mm, 66 mm, or 73 mm).

**Overall Length (mm)**  
MP Joint Center to Distal Fingertip

Thumb	<input style="width: 90%;" type="text"/>	mm
-------	--	----

*Please include additional material if you feel it would be useful (e.g., photographs, additional drawings and measurements, photographs with rulers, scans, etc.)*

### Digit Size Table

Length	Part Number	Selection
59 mm	PNTTHB-059-G	<input type="checkbox"/>
66 mm	PNTTHB-066-G	<input type="checkbox"/>
73 mm	PNTTHB-073-G	<input type="checkbox"/>

### Finger surface finish option

<input type="checkbox"/>	Gunmetal Titanium
--------------------------	-------------------

### Mounting Kit

Size	Part Number	Quantity
59 mm	PNTTHBMK-059	
66 mm	PNTTHBMK-066	
73 mm	PNTTHBMK-073	

**Are you willing to conduct a quickDASH outcome measure prior to the fitting and after the fitting?**

A \$5 Amazon gift card will be provided after submission of the pre-fitting quickDASH, and a \$15 Amazon gift card will be provided after submission of the post-fitting quickDASH.

Yes  No

*The above information is true to the best of my knowledge. By signing the form, I am accepting responsibility for the sizing. If the sizing is incorrect, resulting in an ill-fitting device, I understand I may incur additional charges.*
