# PREMIUM EQUINE FEED

LIFE STAGE:	LIFESTYLE:	PRODUCT FORM:	UNIQUE NUTRITIONAL NEEDS:
Growing	Active Pleasure/Maintenance	Pelleted	Weight Loss
Adult	Performance/Moderate Work	Textured	Carbohydrate Sensitivity
Senior	Performance/Intense Work	Granular	Built-in Forage

## GENERAL FEEDING GUIDELINES

- Forage is the base of a healthy diet. Build a strong base for your horse.
- Feed 1.5-2% of your horses weight in forage. (1000lb horse would be 20lbs)
- Feed by weight not by volume, because not all grains have the same volume.
- Feed on a set schedule. Horses are creatures of habit and are easily upset by changes in routine.
- Change feeds gradually over a 10-12 day period.
- When work or exercise decreases, reduce the grain portion of the feed ration.
- Be aware of dominance in your horses. Are they all getting their feed?
- Examine teeth at least once a year to make sure they are able to chew easily.
- Store feed properly free of mold, rodents, or contamination.

**GOLD CONDITIONER**    **SENIOR CONDITIONER**    **SAFE CONDITIONER**    **APPLE SNAPS**

**Expertly Formulated**

**Locally Milled**

**Highly Nutritious**

# GOLD CONDITIONER

For performance horses or animals with an active lifestyle.

- Omega-3's Enhanced for Better Health
- Added Yeast for Increased Digestibility and Absorption of Nutrients
- Growth Hormone Free

ALL  
NATURAL

BALANCED  
NUTRITION

PERFORMANCE  
DRIVEN
